How to Contact Nutricia

Nutricia's Customer Service:

- **Phone:** (800) 365-7354
- **Fax:** (301) 795-2301
- **Email:** CustomerService@nutricia.com

Nutricia's Nutrition Services:

- **Phone:** (800) 365-7354
- **Email:** NutritionServices@nutricia.com

Internet:

For information on Nutricia products, reimbursement,* and other helpful resources, visit www.Nutricia-NA.com. For a complete listing of our websites, see Resources.

* For reimbursement information, please see Resources.

- Nutricia is a global health company.
- Nutricia leads the development and use of advanced medical nutrition for specialized care.
- Pioneering nutritional solutions to help people live longer, more joyful and healthier lives.

This guide is a convenient reference for clinicians to the full range of Nutricia's medical nutritional products. Nutricia strives to develop quality products that offer choice and flexibility to today's patients to enhance diet acceptance. Please note that all of our products require medical supervision. For additional information, please call our Nutrition Services team or visit our web site at www.Nutricia-NA.com. Our staff is comprised of individuals with the highest level of expertise ready to offer support to our customers. We look forward to hearing from you.

Consumers and Patients:

Nutricia products are available for convenient home delivery directly from Nutricia North America. Consumers can call our toll free number or visit one of our websites. See Resources for a list of our websites.

Consumers can also purchase Nutricia products through retail pharmacies. Pharmacies can special order Nutricia products from their wholesaler or directly from Nutricia North America.

Pepticate™ Infant Formula

An extensively hydrolyzed whey protein-based powdered infant formula specifically designed for infants with cow milk allergy, containing a clinically tested blend of prebiotics, lactose, DHA/ARA, and nucleotides.

Main Features:

- Hypoallergenic
- Contains lactose found naturally in breast milk¹ helping to make the formula more palatable²
- Contains nucleotides which are naturally present in breast milk³
- Prebiotic blend of scGOS and lcFOS in a 9:1 ratio
- DHA at 0.32% fatty acids
- Osmolality (at 0.67 kcal/mL): 280 mOsm/kg H₂O
- Free water (at 0.67 kcal/mL): 90.0%
- Potential Renal Solute Load (at 0.67 kcal/mL): 140 mOsm/L
- Displacement 0.74 mL/g
- Energy distribution:

Protein	9%
Carbohydrate	42%
Fat (MCT 15%/LCT 85%)	47%

Indications:

- Cow milk allergy

For details on scoop size, household measures, sample information and administration, please see the end of this section.

Ordering/Reimbursement Information:

scGOS = short chain galactooligosaccharides; lcFOS = long chain fructooligosaccharides

Neocate® Syneo® Infant

A nutritionally complete, powdered amino acid-based infant formula with prebiotics and probiotics specifically designed for infants with food allergies, containing iron and nucleotides. Neocate Syneo Infant is the first and only amino acid-based formula with pre- and probiotics designed to help support immune function.

Main Features:

- Hypoallergenic
- Backed by 4 clinical trials, clinically shown to:
 - Effectively relieves food allergy symptoms when used as part of dietary management¹
 - Support growth and development¹⁻⁵
 - Target gut dysbiosis and help balance the gut microbiota in infants with food allergies³⁻⁶
- Probiotic *Bifidobacterium breve* M-16V
- Prebiotic fiber blend of scFOS and lcFOS
- DHA at 0.35% fatty acids; DHA and ARA at 1:1 ratio
- Osmolality (at 0.67 kcal/mL): 360 mOsm/kg H₂O
- Free water (at 0.67 kcal/mL): 90.0%
- Energy distribution:

Protein	11.4%
Carbohydrate	45.1%
Fat (MCT 33%/LCT 67%)	43.5%
- Potential renal solute load (at 0.67 kcal/mL): 176 mOsm/L
- Displacement: 0.71 mL/g
- Kosher Pareve & Halal

Indications:

- Cow milk allergy
- Multiple food allergies
- Related GI and allergic conditions:
 - Eosinophilic esophagitis (EoE)
 - Food protein-induced enterocolitis syndrome (FPIES)
 - Gastroesophageal reflux (GER)

For details on scoop size, household measures, sample information and administration, please see the end of this section.

For guidance on monitoring micronutrients, please see page 43.

**A source of docosahexaenoic acid (DHA)

Neocate® Infant DHA / ARA

A nutritionally complete, powdered amino acid-based infant formula containing iron and nucleotides.

Main Features:

- Hypoallergenic
- Nucleotides added (present in breast milk¹)
- DHA at 0.35% fatty acids
DHA and ARA at 1:1 ratio
- Osmolality (at 0.67 kcal/mL):
340 mOsm/kg H₂O
- Free water (at 0.67 kcal/mL): 90.3%
- Energy distribution:
Protein 11.2%
Carbohydrate 43.1%
Fat (MCT 33% / LCT 67%) 45.7%
- Potential renal solute load (at 0.67 kcal/mL):
168 mOsm/L
- Displacement: 0.70 mL/g
- Kosher Pareve & Halal

Indications:

- Cow milk allergy
- Multiple food allergies
- Related GI and allergic conditions

*For details on scoop size, household measures, sample information and administration, please see the end of this section.
For guidance on monitoring micronutrients, please see page 43.*

Neocate® Nutra

The first and only amino acid-based semi-solid medical food for children and infants over 6 months of age.

Main Features:

- Cereal-style option to promote oral development¹
- Hypoallergenic
- Made with 100% non-allergenic amino acids
- Dairy and gluten free
- High in calcium
- Good source of vitamin D, zinc and iron
- No artificial colors, flavors, sweeteners or preservatives
- Energy distribution:

Protein	7%
Carbohydrate	57%
Fat (MCT 4% / LCT 96%)	36%

Indications:

- Cow milk allergy
- Multiple food allergies
- Related GI and allergic conditions:
 - Eosinophilic esophagitis (EoE)
 - Gastroesophageal reflux (GER)
 - Short bowel syndrome (SBS)
 - Malabsorption

For details on scoop size, household measures, sample information and administration, please see the end of this section.

Neocate® Junior, Unflavored (without prebiotics)

A nutritionally complete, powdered amino acid-based medical food for individuals over the age of 1.

Main Features:

- Hypoallergenic
- 100% non-allergenic free amino acids
- Nutritionally complete
- Great-tasting Neocate Junior shown to help support adherence (92%) in one clinical trial¹
- Also available with prebiotic fiber in 5 great-tasting flavors
- Standard dilution = 1 kcal/mL
- Osmolality (at 1 kcal/mL): 600 mOsm/kg H₂O
- Free water (at 1 kcal/mL): 85.6%
- Energy distribution:

Protein	12.4%
Carbohydrate	42.6%
Fat (MCT 35% / LCT 65%)	45%
- Kosher Pareve & Halal
- Displacement: 0.69 mL/g

Indications:

- Cow milk allergy
- Multiple food allergies
- Related GI and allergic conditions:
 - Eosinophilic esophagitis (EoE)
 - Food protein-induced enterocolitis syndrome (FPIES)
 - Gastroesophageal reflux (GER)
 - Short bowel syndrome (SBS)
- Malabsorption

For details on scoop size, household measures, sample information and administration, please see the end of this section.
For guidance on monitoring micronutrients, please see page 43.

Ingredients:

Corn Syrup Solids, Refined Vegetable Oil (Medium Chain Triglycerides (Palm Kernel and/or Coconut Oil), High Oleic Sunflower Oil, Sunflower Oil, Canola Oil), L-Serine, and less than 2% of each of the following: L-Glutamine, Glycine, L-Alanine, L-Leucine, L-Lysine, Acetate, L-Threonine, L-Tyrosine, Dipotassium Phosphate, Fructooligosaccharides, Inulin, L-Valine, Citric Acid Esters of Mono- and Diglycerides (CITREM), Tricalcium Phosphate, Maltodextrin, L-Isoleucine, Tripotassium Citrate, Trisodium Citrate, Calcium Carbonate, L-Proline, L-Cystine, L-Histidine, L-Phenylalanine, Choline Bitartrate, Magnesium Hydrogen Phosphate, L-Methionine, L-Arginine, Sodium Chloride, Calcium Chloride, L-Tryptophan, Magnesium Chloride, M-Inositol, L-Ascorbic Acid, Sunflower Lecithin, Taurine, Ferric Sulfate, L-Carnitine, Zinc Sulfate, DL-Alpha Tocopheryl Acetate, Ascorbyl Palmitate, Niacinamide, Calcium D-Pantothenate, Manganese Sulfate, Cupric Sulfate, Riboflavin, Thiamine Chloride Hydrochloride, Pyridoxine Hydrochloride, Vitamin A Acetate, Folic Acid, Potassium Iodide, Chromium Chloride, Sodium Molybdate, Sodium Selenite, Phylloquinone, D-Biotin, Vitamin D₃, Cyanocobalamin.

Vanilla also contains less than 2% of the following: Artificial Flavor, Sucralose.

Strawberry also contains less than 2% of the following: Artificial Flavor, Sucralose, Citric Acid.

Chocolate also contains: Artificial Flavors, and less than 2% of Sucralose.

Tropical also contains: Artificial Flavor, Citric Acid, and less than 2% of Acesulfame Potassium.

Neocate® Splash

The first and only nutritionally complete, ready-to-feed amino acid-based medical food for individuals over the age of 1.

Main Features:

- Hypoallergenic
- 100% non-allergenic free amino acids
- Nutritionally complete
- Sterile liquid, ideal for in- and outpatient use
- Convenient ready-to-feed 8 fl oz cartons (for oral and/or tube feeding)
- Gluten free
- Great-tasting Neocate Splash shown to help support adherence in one clinical trial¹
- Available in 5 great-tasting flavors: Vanilla, Orange-Pineapple, Grape, Tropical Fruit, Unflavored
- Energy density = 1 kcal/mL
- Energy distribution:

Protein	12%
Carbohydrate	42%
Fat (MCT 35% / LCT 65%)	46%
- Osmolality (mOsm/kg H₂O):

670 (Unflavored), 740 (Grape), 710 (Vanilla)
790 (Orange-Pineapple, Tropical Fruit)
- Free water: 84.6%

Indications:

- Cow milk allergy
- Multiple food allergies
- Related GI and allergic conditions:
 - Eosinophilic esophagitis (EoE)
 - Food protein-induced enterocolitis syndrome (FPIES)
 - Gastroesophageal reflux (GER)
 - Short bowel syndrome (SBS)
 - Malabsorption

Ingredients:

Water, Maltodextrin, Sugar, Refined Vegetable Oils (High Oleic Sunflower Oil, Medium Chain Triglycerides (Modified Palm Kernel And/Or Coconut Oil), Canola Oil), And Less Than 2% of each of the following: Calcium Glycerophosphate, Malic Acid, L-Arginine, L-Lysine L-Aspartate, Microcrystalline Cellulose, L-Leucine, Tripotassium Citrate, L-Phenylalanine, Diacetyl Tartaric Acid Esters Of Mono- And Diglycerides, Mono- And Diglycerides, Trisodium Citrate, L-Proline, L-Valine, Glycine, L-Isoleucine, N-Acetyl L-Methionine, L-Threonine, L-Histidine, L-Serine, L-Alanine, Potassium Chloride, Magnesium Acetate, Choline Bitartrate, L-Tryptophan, Calcium Chloride, L-Tyrosine, Cellulose Gum, L-Ascorbic Acid, M-Inositol, L-Cystine, Taurine, L-Carnitine, Zinc Sulfate, DL-Alpha Tocopheryl Acetate, Niacinamide, Calcium D-Pantothenate, Manganese Sulfate, Sodium Selenite, Cupric Sulfate, Riboflavin, Chromium Chloride, Thiamine Chloride Hydrochloride, Vitamin A Palmitate, Pyridoxine Hydrochloride, Folic Acid, Potassium Iodide, Sodium Molybdate, Phylloquinone, D-Biotin, Vitamin D₃, Cyanocobalamin.

Unflavored also contains less than 2% of: Ferrous Sulfate.

Grape also contains less than 2% of: Artificial Flavors, Sucralose, Ferrous Lactate.

Tropical Fruit also contains less than 2% of: Artificial Flavor, Acesulfame Potassium, Ferrous Lactate.

Orange-Pineapple also contains less than 2% of: Artificial Flavors, Sucralose, Ferrous Lactate.

Vanilla also contains less than 2% of: Artificial Flavors, Sucralose, Ferrous Lactate.

DIRECTIONS FOR PREPARATION AND USE:

- Intake to be determined by a healthcare professional and is dependent on the age, body weight and medical condition of the patient. Intended for use under medical supervision.

Neocate Nutra is a semi-solid medical food and is not for bottle or tube feeding.

- All formulas can be taken orally or tube fed. Not for parenteral use.
 - Neocate Syneo Infant is not recommended for use in infants with a central venous catheter or post-pyloric feeding tube unless directed or supervised by a healthcare professional.
- Do not boil formula or use a microwave to prepare or warm formula.
- If taken orally, formulas for beyond 1 year of age are best served chilled.
- Once formula is prepared or carton is opened, formula should be stored in a refrigerator at 35-40°F (2-4°C) and kept no longer than 24 hours from the time of preparation (time of opening for liquids).
- Shake or stir formula immediately before use.
- Tube feeding hang time:** Nutricia recommends formula can be safely kept at room temperature for up to **4 hours**, at which time unused formula should be discarded.
- Discard formula left in bottle or cup **1 hour** after feeding starts.
- All scoops should be unpacked and level. Use a scale that measures in grams for the most accurate results. Household measures are not recommended for measuring powdered Nutricia products.

STORAGE:

Cans: Store unopened and opened cans in a cool, dry place. Avoid extreme temperatures. Once opened, use within one month (two weeks for Neocate Syneo Infant).

Packets: Store in a cool, dry place.

Liquids: Store unopened product in a cool, dry place. Once opened, store in a refrigerator and keep no longer than 24 hours. Do not freeze.

Refer to product labels for full preparation instructions

DIRECTIONS FOR PREPARATION AND USE:

PEPTICATE, NEOCATE SYNEO INFANT AND NEOCATE INFANT DHA/ARA

To make a standard dilution (20 cal/fl oz), add 1 unpacked level scoop of powder to each fluid ounce of water.

Only use the scoop provided.

- Wash hands thoroughly and clean preparation area.
- Add 1 unpacked level scoop of powder to each 1 fl oz of water.*
- Cap bottle; shake well. Feed immediately OR refrigerate immediately and use within 24 hours. Once feeding begins, use within 1 hour or discard.

***For Neocate Syneo Infant: Mixing with water warmer than 104°F (40°C) or warming formula above 104°F (40°C) may lessen the benefits of the probiotic cultures. We recommend cooled, boiled water for preparation and the use of sterilized bottles.**

NEOCATE JUNIOR

To make a standard dilution (30 kcal/fl oz), add 1 unpacked, level scoop of powder to each fluid ounce of water.

- Measure the required amount of warm or cool water into a container.
- Add the prescribed amount of Neocate Junior to the water.
- Stir, or cover and shake, until the powder has dissolved.

NEOCATE NUTRA

The suggested serving is 8 scoops (37 g) of powder plus 2 fl oz water to give a spoonable consistency. A smaller serving size can be prepared by adding 1 fl oz of water to 4 scoops of powder (18.5 g). It is recommended that cooled, boiled water be used when preparing the product for infants.

- Wash hands thoroughly and clean the preparation area.
- Add the recommended number of scoops of Neocate Nutra to a clean bowl.
- Gradually add the required amount of water while stirring with a clean spoon. Mix until thickened. To alter the consistency, add more or less water as required.

Neocate Nutra should be prepared immediately prior to feeding. Any prepared product remaining should be discarded if not used within one hour. Neocate Nutra can be added to cooked dishes. Do not add to very hot foods. Do not warm prepared product. Not suitable as a sole source of nutrition. **Not for bottle or tube feeding.**

NEOCATE SPLASH

Shake well before use. Once carton is opened, formula should be stored in a refrigerator at 35-40°F (2-4°C) and kept no longer than 24 hours from the time of opening.

Household measures are based on standard US, dry household measures.[†] All measures are level and unpacked. These values are approximations only and have been provided for convenience: results can vary significantly based on the individual, device, and method. Nutricia North America recommends using a gram scale for greatest accuracy. The scoops Nutricia provides are validated for use with Nutricia formulas, so are preferable to household measures.

[†] US measures: 1 cup = 240 mL; 1/2 cup = 120 mL; 1/3 cup = 80 mL; 1/4 cup = 60 mL; 1 Tbsp = 15 mL; 1 tsp = 5 mL; 1/2 tsp = 2.5 mL

* This chart assumes 1 fl oz = 30 mL. Water volumes are exact, but final volume of prepared formula may vary slightly.
[†] Scoops should be level and unpacked. While the scoops Nutricia provides are validated for use with Nutricia formulas, weighing powder using a gram scale provides greatest accuracy. 1 level, unpacked scoop yields 4.6 grams powder and provides 22.22 kcal. 1 gram provides 4.83 kcal and displaces ~0.70 mL water.

*This chart assumes 1 fl oz = 30 mL. Water volumes are exact, but final volume of prepared formula may vary slightly.

†Scoops should be level and unpacked. While the scoops Nutricia provides are validated for use with Nutricia formulas, weighing powder using a gram scale provides greatest accuracy. 1 level, unpacked scoop yields 7.7 grams powder and provides 36.3 kcal. 1 gram provides 4.72 kcal and displaces ~0.74 mL water.

6	5	150	53	1572

*This chart assumes 1 fl oz = ~29.6 mL. 1 carton = 8 fl oz = 237 mL and standard dilution is 30 kcal/fl oz, or 1 kcal/mL. In recipes that don't call for an even number of Neocate Splash carton and those that call for adding water, mL volumes are rounded to the nearest 15 mL.
[†]Nutricia North America recommends using a scale for greatest accuracy. Dilutions are more accurate using weighed powder vs. scoops. Scoops should be level and unpacked. 1 level, unpacked scoop yields 7.3 grams powder and provides 35.0 kcal. 1 gram provides 4.79 kcal and displaces ~0.69 mL water.

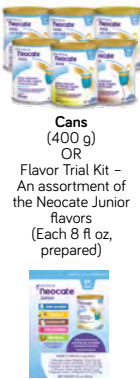

*This chart assumes 1 fl oz = 30 mL. Water volumes are exact, but final volume of prepared formula may vary slightly.
[†]Scoops should be level and unpacked. While the scoops Nutricia provides are validated for use with Nutricia formulas, weighing powder using a gram scale provides greatest accuracy. 1 level, unpacked scoop yields 7.3 grams powder and provides 32.9 kcal. 1 gram provides 4.51 kcal and displaces ~0.70 mL water.

All samples include nutrition information, ingredients, and preparation and storage instructions.

Update on Monitoring Micronutrients

Serum levels of micronutrients, particularly phosphorus, should be routinely monitored by clinicians when Neocate is used as a primary or sole source of nutrition for patients with complex systemic disease involving multiple diagnoses and intestinal disease, especially in combination with tube feeding and/or a history of prematurity. Neocate** formulas are intended for use under medical supervision.*

** A retrospective review identified case studies of patients on primary or sole source nutrition with diagnoses covering multiple systems, including congenital gastrointestinal anomalies and GI surgeries (such as necrotizing enterocolitis, esophageal atresia, tracheoesophageal fistula); neurological conditions (such as seizures, intraventricular hemorrhage, hydrocephalus); respiratory (lung disease, tracheostomy, aspiration); cardiac (congenital heart disease); and other systemic conditions, often in conjunction with tube feeding and/or a history of prematurity.*

*** Neocate is an amino acid-based formula for dietary management of cow milk allergy, multiple food protein allergies, and related GI and allergic conditions for which an amino acid-based diet is indicated.*

CHALLENGED GROWTH

Fortini™ Infant

The first and only ready-to-feed, 30 kcal/fl oz formula specially calibrated for term infants with or at risk of growth failure, increased energy requirements and/or fluid restrictions.

Visit Fortini.com
to learn more

Main Features:

- Nutritionally complete
- 30 kcal/fl oz (1 kcal/mL)
- Sterile liquid in 4 fl oz (118 mL) cartons for oral and tube feeding
- 2.6 g protein per 100 kcal: casein 40%, whey 60%
- Supports catch-up growth^{1,2}
- Well tolerated in infants with growth failure^{1,2}
- Prebiotic fiber to help support gut health^{3,4}
- Osmolality: 360 mOsm/kg H₂O
- Free water: 85%
- Potential renal solute load: 223 mOsm/L
- Energy distribution:

Protein	10.3%
(In expert-recommended range for catch-up growth ⁵)	
Carbohydrate	41.6%
Fat (MCT 24%/ LCT 76%)	48.1%

Backed by 7 clinical studies, 20 years of trusted use, and available in over 30 countries

Indications:

For term infants from 0 to 18 months of age or up to 19.8 lbs (9 kg) with or at risk of growth failure, increased energy requirements and/or fluid restrictions due to conditions such as:

- Congenital heart disease
- Chronic lung disease
- Respiratory syncytial virus
- Neurological syndrome or neuro-disabilities
- Cystic fibrosis
- Non-organic failure to thrive

For details on administration, please see the end of this section.

Ingredients:

Water, Nonfat Milk, Maltodextrin, Refined Vegetable Oils (Canola, Modified Coconut, High Oleic Sunflower, Sunflower, and Corn Oils), Lactose, and less than 2% of each of the following: Galacto-oligosaccharides (GOS), Whey Protein, Medium Chain Triglycerides (Palm Kernel and/or Coconut Oil), Anhydrous Milk Fat, Citric Acid Esters of Mono- and Diglycerides (CITREM), Calcium Citrate, Fructooligosaccharides (FOS), Potassium Citrate, Calcium Phosphate, Sodium Chloride, Citric Acid, C. cohnii Oil*, Inositol, M. alpina Oil**, Sodium L-Ascorbate, Choline Chloride, Magnesium Carbonate, Calcium Hydroxide, Potassium Hydroxide, Ferrous Lactate, Taurine, Dipotassium Hydrogen Phosphate, Nucleotides (Cytidine 5'-Monophosphate, Adenosine 5'-Monophosphate, Disodium Uridine 5'-Monophosphate, Disodium Inosine 5'-Monophosphate, Disodium Guanosine 5'-Monophosphate), DL-Alpha Tocopheryl Acetate, L-Carnitine, Zinc Sulfate, Calcium D-Pantothenate, Niacin, Soy Lecithin, Copper Gluconate, Thiamine Hydrochloride, Potassium Iodide, Riboflavin, Pyridoxine Hydrochloride, Vitamin A Acetate, Manganese Sulfate, Folic Acid, Phylloquinone, D-Biotin, Sodium Selenite, Cholecalciferol, Cyanocobalamin.

Contains: Milk, Soy

*A source of Docosahexaenoic Acid (DHA)

**A source of Arachidonic Acid (ARA)

DIRECTIONS FOR PREPARATION AND USE:

Use only under medical supervision. For oral and tube feeding only; not for parenteral use. For infants and young children up to 18 months of age or up to 19.8 lbs (9 kg) with or at risk of growth failure, increased energy requirements and/or fluid restrictions. Clinicians should regularly monitor for adequate nutrient and fluid status by reviewing nutrient intake and needs, anthropometry, tolerance, and micronutrient status.

Storage before opening: Store in a cool, dry place. Do not freeze. Avoid excessive heat and prolonged exposure to light.

DIRECTIONS FOR PREPARATION:

1. Wash hands thoroughly and clean preparation area.
2. Sterilize feeding bottle* and ensure top of carton is clean.
3. Shake well before use.
4. The formula should be decanted into a sterilized formula bottle.*

If the infant is being tube fed, the formula can be decanted into a sterilized feeding bag.

5. Cap bottle. Feed immediately. Discard unfinished feeds after use.

*Nutricia directs caregivers to ask the baby's healthcare team if they need to boil (sterilize) bottles and nipples before use.

Do not boil or use a microwave to warm formula; serious burns may result. Formula must not be re-warmed during feeding.

Storage after opening: Opened individual cartons can be kept in the fridge for maximum 24 hours.

Tube feeding: 4-hour hang time based on using a single-use sterile bag every feeding and not warming formula for tube feeding.

WHAT TO EXPECT:

- Fortini Infant can be started at full strength from day 1 for most infants, and is as well tolerated as standard (20 kcal/fl oz) infant formula.
- Infants less than 12 weeks of age may benefit from a graded introduction to Fortini Infant over three days. See following pages.
- You might notice some changes in stool frequency and consistency and a slight increase in gas as babies adjust to the prebiotic fiber in Fortini Infant. That's normal, and should only last a few days.

TO SUPPLEMENT:

- **Nutricia supports the use of breast milk wherever possible:** Fortini Infant can supplement breast milk to add calories and protein for catch-up growth in minimal formula volume to preserve gastric volume for breast milk. See following pages.

Number of cartons	Volume	Energy	Free water volume
1	118 mL 4 fl oz	118 kcal	100 mL 3.4 fl oz
2	236 mL 8 fl oz	236 kcal	201 mL 6.8 fl oz
3	354 mL 12 fl oz	354 kcal	301 mL 10.2 fl oz
4	472 mL 16 fl oz	472 kcal	401 mL 13.6 fl oz
5	590 mL 20 fl oz	590 kcal	502 mL 17.0 fl oz
6	708 mL 24 fl oz	708 kcal	602 mL 20.4 fl oz
7	826 mL 28 fl oz	826 kcal	702 mL 23.7 fl oz
8	944 mL 32 fl oz	944 kcal	802 mL 27.1 fl oz
9	1062 mL 36 fl oz	1062 kcal	903 mL 30.5 fl oz
10	1180 mL 40 fl oz	1180 kcal	1003 mL 33.9 fl oz

Volumes of Fortini Infant that provide ≥100% of DRIs:

0-6 months	590 mL (5 cartons)*
7-12 months	750 mL (6½ cartons)†
12-18 months	880 mL (7½ cartons)‡

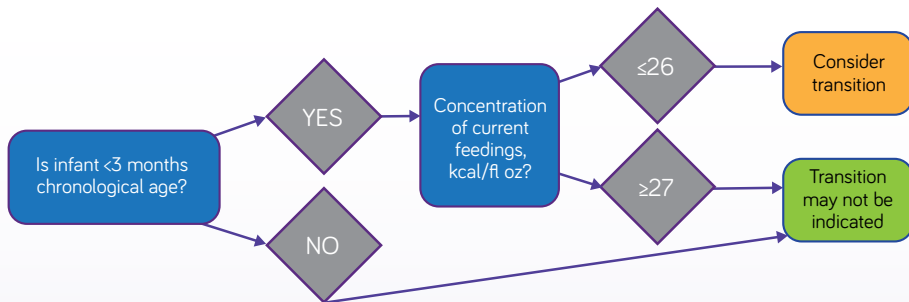

RDAs should not guide energy or protein goals in critically ill infants.

*Provides ≥100% Adequate Intake (AI) for all nutrients.

†Provides ≥100% AI except carbohydrate 80%, manganese 20%, sodium 75%, potassium 82%, chloride 81%.

‡Provides ≥100% 1-3-year DRI except carbohydrate 69%§, fiber 37%, niacin 78%§, phosphorus 96%§, manganese 12%, sodium 41%, potassium 42%, chloride 36%. §=Recommended Dietary Allowance, otherwise AI.

WHEN TO CONSIDER A GRADED TRANSITION TO FORTINI INFANT:

CONSIDER ONE OF THESE METHODS TO TRANSITION TO FORTINI INFANT, WHEN INDICATED:

		Method 1: Fade by replacing feedings	Method 2: Fade by blending
Day 1	Original formula or breast milk	3 feedings	75%
	Fortini Infant	Remainder	25%
Day 2	Original formula or breast milk	2 feedings	50%
	Fortini Infant	Remainder	50%
Day 3	Original formula or breast milk	1 feeding	25%
	Fortini Infant	Remainder	75%
Day 4	All feedings 100% Fortini Infant		

**Method 2:
Fade by blending in the bottle**
Start by mixing a small amount of Fortini Infant with original formula or breast milk in a clean bottle.

- If the original formula is a powder, mix it separately following the directions on the can, before combining with Fortini Infant.
- If the baby is taking breast milk, give the expressed milk in a bottle (be sure the baby is comfortable with a bottle first).
- Over a period of days, gradually increase the ratio of Fortini Infant to the original formula in the bottle.

Visit FortiniUS.com for printable versions of this and other resources.

RATIOS OF BREAST MILK TO SUPPLEMENTAL FORTINI INFANT, IN FEEDINGS OR FLUID OUNCES:

Ratio of feedings		Characteristics, if blended	Volume Breast Milk	Volume Fortini Infant		Approximate Final Volume and Calories	
Breast milk	Fortini Infant	22 kcal/fl oz 0.73 kcal/mL Protein \pm 0.4 g/100 mL*	4 fl oz	1 fl oz	-	5 fl oz (148 mL)	110 kcal
			8 fl oz	2 fl oz	½ carton	10 fl oz (295 mL)	219 kcal
			16 fl oz	4 fl oz	1 carton	20 fl oz (591 mL)	438 kcal
Breast milk	Fortini Infant	24 kcal/fl oz 0.80 kcal/mL Protein \pm 0.7 g/100 mL*	3 fl oz	2 fl oz	½ carton	5 fl oz (148 mL)	119 kcal
			6 fl oz	4 fl oz	1 carton	10 fl oz (295 mL)	238 kcal
			12 fl oz	8 fl oz	2 cartons	20 fl oz (592 mL)	477 kcal
Breast milk	Fortini Infant	26 kcal/fl oz 0.87 kcal/mL Protein \pm 1.0 g/100 mL*	2.5 fl oz	4 fl oz	1 carton	6.5 fl oz (192 mL)	168 kcal
			5 fl oz	8 fl oz	2 cartons	13 fl oz (385 mL)	337 kcal
			8 fl oz	12 fl oz	3 cartons	20 fl oz (591 mL)	515 kcal
Breast milk	Fortini Infant	27 kcal/fl oz 0.90 kcal/mL Protein \pm 1.1 g/100 mL*	2.5 fl oz	6 fl oz	1 ½ cartons	8.5 fl oz (251 mL)	230 kcal
			3.5 fl oz	8 fl oz	2 cartons	11.5 fl oz (340 mL)	307 kcal
			5 fl oz	12 fl oz	3 cartons	17 fl oz (503 mL)	455 kcal
Breast milk	Fortini Infant	28 kcal/fl oz 0.93 kcal/mL Protein \pm 1.3 g/100 mL*	1 fl oz	4 fl oz	1 carton	5 fl oz (148 mL)	138 kcal
			2 fl oz	8 fl oz	2 cartons	10 fl oz (295 mL)	277 kcal
			5 fl oz	20 fl oz	5 cartons	25 fl oz (739 mL)	691 kcal

* Fortini Infant contains 2.6 g protein/100 mL. Add number shown (“+XX”) to a value for protein content of human milk (___ g/100 mL) to estimate increased protein with added Fortini Infant. Assumes protein content in mature human milk of 1.1 g/100 mL.

Nutricia North America supports the use of breast milk wherever possible.

PKU Periflex® Early Years

A phenylalanine-free powdered infant formula with iron, for the dietary management of phenylketonuria (PKU). Contains DHA and ARA, and a unique blend of prebiotics.

Main Features:

- Phenylalanine-free powdered infant formula with iron
- Includes DHA & ARA
- Contains a prebiotic blend of galacto-oligosaccharides (GOS) and fructo-oligosaccharides (FOS)
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrates, fat, vitamins, minerals and trace elements
- Provides 13.5 g of protein equivalent (PE) per 100 g of powder
- Unflavored powder
- Osmolality (at 0.7 kcal/mL): 380 mOsm/kg H₂O based on dilution of 5 g powder (1 unpacked level scoop) to 1 fl oz (30 mL) water
- Displacement: 0.75 mL/g

Indications:

- Phenylketonuria

For details on administration and household measurements, please see the end of this section.

Contains: Soy Oil, Coconut Oil, Milk.

* A source of Arachidonic Acid (ARA)

** A source of Docosahexaenoic Acid (DHA)

Contains GOS/FOS 0.8 g per 100 mL

PKU Periflex® Junior Plus

A phenylalanine-free, powdered medical food for the dietary management of phenylketonuria (PKU) in children over 1 year of age.

Main Features:

- Phenylalanine free
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrate (including a multi-fiber blend), fat (including DHA), vitamins, minerals and trace elements
- Age-appropriate DRI formulation
- Provides 28 g of protein equivalent and 12.5 g of fat per 100 g of powder
- Available in Plain, Vanilla, Berry and Orange flavors
- Osmolality (at 11 kcal/mL): 1340 mOsm/kg H₂O based on dilution of 36 g powder (approx 4 scoops) to 3.5 fl oz (100 mL) water
- Displacement: 0.72 mL/g

Indications:

- Phenylketonuria

For details on administration and household measurements, please see the end of this section.

Ingredients:

Plain: Corn Syrup Solids, Refined Vegetable Oils (High Oleic Sunflower, Canola, Medium Chain Triglycerides (Palm Kernel and/or Coconut Oil), Sunflower), L-Alanine, Glycine, Fructo-oligosaccharides, L-Glutamine, Inulin, Corn Starch, L-Tyrosine, Calcium Phosphate Dibasic, L-Lysine Acetate, L-Threonine, Microcrystalline Cellulose, L-Leucine, L-Proline, Artificial Flavor, Gum Arabic, L-Cystine, L-Arginine, L-Valine, L-Isoleucine, Tripotassium Citrate, Trisodium Citrate, L-Serine, Calcium Chloride, L-Methionine, L-Histidine, Maltodextrin, Choline Bitartrate, Magnesium Hydrogen Phosphate, Magnesium L-Aspartate, Citric Acid Esters of Mono- and Diglycerides (CITREM), *C. cohnii* Oil*, L-Tryptophan, Tricalcium Citrate, L-Ascorbic Acid, Soy Fiber, M-Inositol, Taurine, Ferrous Sulfate, Sunflower Lecithin, L-Carnitine, Zinc Sulfate, DL-Alpha Tocopheryl Acetate, Calcium D-Pantothenate, Manganese Sulfate, Niacinamide, Cupric Sulfate, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Riboflavin, Vitamin A Acetate, Ascorbyl Palmitate, Folic Acid, Potassium Iodide, Mixed Tocopherols, Sodium Molybdate, Sodium Selenite, Chromium Chloride, DL-Alpha Tocopherol, Vitamin D₃, Phylloquinone, D-Biotin, Cyanocobalamin.

Contains: Soy, Coconut Oil.

Vanilla: Corn Syrup Solids, Refined Vegetable Oils (High Oleic Sunflower, Canola, Medium Chain Triglycerides (Palm Kernel and/or Coconut Oil), Sunflower), L-Alanine, Glycine, Fructo-oligosaccharides, L-Glutamine, Inulin, Corn Starch, L-Tyrosine, Calcium Phosphate Dibasic, L-Lysine Acetate, L-Threonine, Microcrystalline Cellulose, L-Leucine, L-Proline, Artificial Flavor, Gum Arabic, L-Cystine, L-Arginine, L-Valine, L-Isoleucine, Tripotassium Citrate, Trisodium Citrate, L-Serine, Calcium Chloride, L-Methionine, L-Histidine, Maltodextrin, Choline Bitartrate, Magnesium Hydrogen Phosphate, Magnesium L-Aspartate, Citric Acid Esters of Mono- and Diglycerides (CITREM), *C. cohnii* Oil*, L-Tryptophan, Tricalcium Citrate, L-Ascorbic Acid, Soy Fiber, M-Inositol, Taurine, Sucralose, Ferrous Sulfate, Sunflower Lecithin, L-Carnitine, Zinc Sulfate, DL-Alpha Tocopheryl Acetate, Calcium D-Pantothenate, Manganese Sulfate, Niacinamide, Cupric Sulfate, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Riboflavin, Vitamin A Acetate, Ascorbyl Palmitate, Folic Acid, Potassium Iodide, Mixed Tocopherols, Sodium Molybdate, Sodium Selenite, Chromium Chloride, DL-Alpha Tocopherol, Vitamin D₃, Phylloquinone, D-Biotin, Cyanocobalamin.

Contains: Soy, Coconut Oil.

*A source of Docosahexaenoic Acid (DHA)

For the ingredient lists of the remaining flavors, please see the end of this section.

Periflex® Advance

A phenylalanine-free, powdered medical food for the dietary management of phenylketonuria (PKU) in older children and adults, including pregnant women and women of child-bearing age.

Main Features:

- Phenylalanine free
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrate, fat, vitamins, minerals and trace elements
- Provides 35 g of protein equivalent and 12.6 g of fat per 100 g of powder
- Meets protein requirements in lower volume when compared to Periflex Junior Plus
- Pleasant taste, smell and texture
- Available in Unflavored and Orange flavor
- Osmolality (mOsm/kg H₂O):

Dilution	Unflavored	Orange
1 to 5	830	890
1 to 4	1060	1100
- Displacement: 0.6 mL/g

Indications:

- Phenylketonuria

For details on administration and household measurements, please see the end of this section.

Ordering/Reimbursement Information:

Taurine	0.12	0.03	Chloride, mg	490	140

Ingredients:

Orange: Corn Syrup Solids, High Oleic Safflower Oil, Canola Oil, L-Lysine, L-Aspartate, L-Glutamine, L-Leucine, L-Tyrosine, Artificial Flavors, Citric Acid, L-Proline, L-Arginine, L-Valine, Glycine, L-Isoleucine, Magnesium Hydrogen Phosphate, L-Threonine, Tricalcium Phosphate, contains 2% or less of the following: Tricalcium Citrate, L-Serine, Disodium Hydrogen Phosphate, L-Histidine, L-Alanine, Guar Gum, Xanthan Gum, Potassium Chloride, Choline Hydrogen Tartrate, L-Cystine, L-Tryptophan, Sugar, L-Methionine, Fractionated Coconut Oil, L-Lysine Acetate, Citric Acid Esters Of Mono- And Diglycerides (CITREM), Tripotassium Citrate, Sucralose, Beet Juice Concentrate (For Color), Beta-Carotene (For Color), Taurine, L-Ascorbic Acid, M-Inositol, Ferrous Sulfate, L-Carnitine, Zinc Sulfate, DL-Alpha Tocopherol Acetate, Manganese Sulfate, Niacinamide, Calcium D-Pantothenate, Cupric Sulfate, Pyridoxine Hydrochloride, Thiamine Hydrochloride, Riboflavin, Vitamin A Acetate, Folic Acid, Potassium Iodide, Chromium Chloride, Sodium Selenite, Sodium Molybdate, Phylloquinone, D-Biotin, Vitamin D₃, Cyanocobalamin.

Contains: Coconut Oil.

Unflavored: Corn Syrup Solids, High Oleic Safflower Oil, Canola Oil, L-Lysine, L-Aspartate, L-Glutamine, L-Leucine, L-Tyrosine, L-Proline, L-Arginine, L-Valine, Glycine, L-Isoleucine, Magnesium Hydrogen Phosphate, L-Threonine, Tricalcium Phosphate, L-Serine, Disodium Hydrogen Phosphate, L-Histidine, L-Alanine, Potassium Chloride, Choline Hydrogen Tartrate, L-Cystine, L-Tryptophan, Sugar, L-Methionine, Fractionated Coconut Oil, L-Lysine Acetate, Citric Acid Esters Of Mono- And Diglycerides (CITREM), Tripotassium Citrate, Taurine, L-Ascorbic Acid, M-Inositol, Ferrous Sulfate, L-Carnitine, Zinc Sulfate, DL-Alpha Tocopherol Acetate, Manganese Sulfate, Niacinamide, Calcium D-Pantothenate, Cupric Sulfate, Pyridoxine Hydrochloride, Thiamine Hydrochloride, Riboflavin, Vitamin A Acetate, Folic Acid, Potassium Iodide, Chromium Chloride, Sodium Selenite, Sodium Molybdate, Phylloquinone, D-Biotin, Vitamin D₃, Cyanocobalamin.

Contains: Coconut Oil.

Periflex® LQ

A phenylalanine-free, ready-to-drink medical food for the dietary management of phenylketonuria (PKU) in children and adults, including pregnant women and women of child-bearing age.

Main Features:

- Phenylalanine free
- Contains a balanced mixture of other amino acids, carbohydrate, vitamins and minerals
- No measuring or mixing
- Provides 15 g of protein equivalent and 5 g of fat per carton
- Available in Orange Crème and Berry Crème flavors
- Osmolality (at 0.64 kcal/mL):
Orange Crème 1080 mOsm/kg H₂O
Berry Crème 1030 mOsm/kg H₂O
- Free water: 84%

Indications:

- Phenylketonuria

For details on administration, please see the end of this section.

Ordering/Reimbursement Information:

Product Code	Reimbursement Code	HCPCS Code*	Product Packaging	Calories Per Carton
113359 - Orange Crème	49735-0125-51	B4162 or B4157	18 x 250 mL (8.5 fl oz)	160
113358 - Berry Crème	49735-0125-24	B4162 or B4157	18 x 250 mL (8.5 fl oz)	160

WIC[†]: Contact your state WIC office to determine availability. For more reimbursement information see *Resources*.

* S9435 = For individuals who submit their bills to insurance on their own.

Ingredients:

Orange Crème: Water, Sugar, and contains 2% or less of the following: Calcium Glycerophosphate, High Oleic Sunflower Oil, L-Lysine Acetate, Canola Oil, L-Leucine, L-Tyrosine, Artificial Flavor, L-Proline, L-Arginine, L-Valine, Glycine, L-Aspartic Acid, L-Isoleucine, Microcrystalline Cellulose, Citric Acid, L-Threonine, L-Serine, Magnesium Acetate, Tripotassium Citrate, L-Histidine, L-Alanine, L-Cystine, Choline Hydrogen Tartrate, N-Acetyl-L-Methionine, Sodium Chloride, L-Tryptophan, Trisodium Citrate, Soybean Oil, L-Ascorbic Acid, Diacetyl Tartaric Acid Esters of Monoglycerides, Mono- and Diglycerides, Guar Gum, Xanthan Gum, Acesulfame Potassium, Taurine, M-Inositol, Ferrous Sulfate, Tricalcium Phosphate, Carnitine, Zinc Sulfate, DL-Alpha Tocopherol Acetate, Niacinamide, Manganese Sulfate, Calcium D-Pantothenate, Cupric Sulfate, Pyridoxine Hydrochloride, Thiamine Hydrochloride, Riboflavin, Vitamin A Acetate, Potassium Iodide, Chromium Chloride, Sodium Selenite, Sodium Molybdate, Phylloquinone, D-Biotin, Cholecalciferol, Folic Acid, Cyanocobalamin.

Contains: Soybean Oil.

Berry Crème: Water, Sugar, and contains 2% or less of the following: Calcium Glycerophosphate, High Oleic Sunflower Oil, L-Lysine Acetate, Canola Oil, L-Leucine, L-Tyrosine, Artificial Flavor, L-Proline, L-Arginine, L-Valine, Glycine, L-Aspartic Acid, L-Isoleucine, Microcrystalline Cellulose, Citric Acid, L-Threonine, L-Serine, Magnesium Acetate, Tripotassium Citrate, L-Histidine, L-Alanine, L-Cystine, Choline Hydrogen Tartrate, N-Acetyl-L-Methionine, Sodium Chloride, L-Tryptophan, Trisodium Citrate, Soybean Oil, L-Ascorbic Acid, Diacetyl Tartaric Acid Esters of Monoglycerides, Mono- and Diglycerides, Guar Gum, Xanthan Gum, Acesulfame Potassium, Taurine, M-Inositol, Ferrous Sulfate, Tricalcium Phosphate, Carnitine, Zinc Sulfate, DL-Alpha Tocopherol Acetate, Niacinamide, Manganese Sulfate, Calcium D-Pantothenate, Cupric Sulfate, Pyridoxine Hydrochloride, Thiamine Hydrochloride, Riboflavin, Vitamin A Acetate, Potassium Iodide, Chromium Chloride, Sodium Selenite, Sodium Molybdate, Phylloquinone, D-Biotin, Cholecalciferol, Folic Acid, Cyanocobalamin.

Contains: Soybean Oil.

PhenylAde® GMP Drink Mix

A powdered medical food, low in phenylalanine, providing protein from glycomacropeptide (GMP) and amino acids with other nutrients for the dietary management of phenylketonuria (PKU) in individuals over 1 year of age.

Main Features:

- Low in phenylalanine
- Complete with essential vitamins and minerals
- Contains a source of DHA
- 15 grams of soluble fiber per each 10 g PE serving
- Provides 30 g of protein equivalent and approx. 12 g of fat per 100 g of powder
- Available in Vanilla and Plain flavors
- Available in pouches and cans
- Osmolality based on dilution of 33.3 g powder to 5 fl oz (150 mL) water: 389 mOsm/kg H₂O
- Displacement: 0.9 mL/g

Indications:

- Phenylketonuria

For details on administration and household measurements, please see the end of this section.

Ingredients:

Plain: Glycomacropeptide (Milk), Maltodextrin, Corn Syrup Solids, Refined Vegetable Oils (Canola Oil, Medium Chain Triglycerides (Coconut and/or Palm Kernel Oil), High Oleic Sunflower Oil, Sunflower Oil), Dextrin, L-Tyrosine, Tricalcium Phosphate, Glycine, Magnesium Phosphate, L-Leucine, L-Histidine, L-Arginine, DHA Powder (Corn Syrup Solids, C. Cohnii Oil[†], Modified Corn Starch, Mannitol, High Oleic Sunflower Oil, Sodium Ascorbate, Mono- and Diglycerides, Sodium Polyphosphate, Tricalcium Phosphate, Natural Flavors, Mixed Tocopherols, Sunflower Lecithin, Ascorbyl Palmitate), Sugar, Potassium Chloride, L-Cystine, Choline Bitartrate, Dicalcium Phosphate, L-Tryptophan, Citric Acid Esters of Mono- and Diglycerides (CITREM), Potassium Citrate, Silicon Dioxide, Sodium Chloride, Ascorbic Acid, Taurine, Inositol, Vitamin E Acetate, Ferrous Sulfate, L-Carnitine, Sunflower Lecithin, Niacinamide, Zinc Oxide, Vitamin D₃, Copper Gluconate, Vitamin A Palmitate, Calcium D-Pantothenate, Manganese Sulfate, D-Biotin, Beta-Carotene, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Potassium Iodide, Riboflavin, Vitamin K₁, Sodium Selenite, Folic Acid, Vitamin B₁₂, Chromium Chloride, Sodium Molybdate.

Contains: Milk.

Vanilla: Glycomacropeptide (Milk), Corn Syrup Solids, Sugar, Refined Vegetable Oils (Medium Chain Triglycerides (Coconut and/or Palm Kernel), High Oleic Sunflower, Canola, Sunflower), Dextrin, L-Tyrosine, Tricalcium Phosphate, Glycine, Natural and Artificial Flavors, Magnesium Phosphate, L-Leucine, L-Histidine, L-Arginine, DHA Powder (Corn Syrup Solids, C. Cohnii Oil[†], Modified Corn Starch, Mannitol, High Oleic Sunflower Oil, Sodium Ascorbate, Mono- and Diglycerides, Sodium Polyphosphate, Tricalcium Phosphate, Natural Flavors, Mixed Tocopherols, Sunflower Lecithin, Ascorbyl Palmitate), Potassium Chloride, L-Cystine, Maltodextrin, Choline Bitartrate, Dicalcium Phosphate, L-Tryptophan, Citric Acid Esters of Mono- and Diglycerides (CITREM), Potassium Citrate, Silicon Dioxide, Sodium Chloride, Ascorbyl Palmitate, Mixed Tocopherols, Ascorbic Acid, Taurine, Inositol, Vitamin E Acetate, Ferrous Sulfate, L-Carnitine, Sunflower Lecithin, Niacinamide, Zinc Oxide, Vitamin D₃, Copper Gluconate, Vitamin A Palmitate, Calcium D-Pantothenate, Manganese Sulfate, D-Biotin, Beta-Carotene, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Potassium Iodide, Riboflavin, Vitamin K₁, Sodium Selenite, Folic Acid, Vitamin B₁₂, Chromium Chloride, Sodium Molybdate.

Contains: Milk.

[†]A source of docosahexaenoic acid (DHA)
Contains 18 mg of phenylalanine per 10 g protein equivalent.

PhenylAde® GMP READY

A ready-to-drink medical food, low in phenylalanine providing protein from glycomacropeptide (GMP) and amino acids for the dietary management of phenylketonuria (PKU) in individuals over 1 year of age.

Main Features:

- Low in phenylalanine
- Complete with essential vitamins and minerals
- Contains a source of DHA & EPA
- No measuring or mixing
- Provides 10 g of protein equivalent and 4 g of fat per 250 mL carton
- Available in Plain (neutral) flavor
- Osmolality (at 0.73 kcal/mL): 460 mOsm/kg H₂O
- Free water: 93%

Indications:

- Phenylketonuria

For details on administration, please see the end of this section.

Contains: Milk.

** A source of docosahexaenoic acid (DHA)

† A source of docosahexaenoic acid (DHA) and eicosapentaenoic acid (EPA)

Contains 18 mg of phenylalanine per 10 g protein equivalent

PhenylAde® GMP ULTRA

A powdered medical food, low in phenylalanine, providing protein from glycomacropeptide (GMP) and amino acids with other nutrients for the dietary management of phenylketonuria (PKU) in individuals over 3 years of age.

Main Features:

- Low in phenylalanine
- A low-volume, lower-calorie option
- Provides 20 g of protein equivalent (PE) per pouch
- Complete with essential vitamins and minerals
- Available in Lemonade and Vanilla flavors
- Osmolality based on dilution of 33.4 g powder (1 pouch) to 6 fl oz (180 mL) water:
 - Vanilla: 500 mOsm/kg H₂O
 - Lemonade: 530 mOsm/kg H₂O
- Displacement: 0.64 mL/g

Indications:

- Phenylketonuria

For details on administration, please see the end of this section.

Vanilla: Glycomacropeptide (Milk), L-Leucine, Sugar, L-Tyrosine, Maltodextrin, L-Arginine, Magnesium Hydrogen Phosphate, L-Histidine, Artificial Flavors, Tricalcium Phosphate, Refined Vegetable Oils (Medium Chain Triglycerides [Coconut and/or Palm kernel], High Oleic Sunflower, Canola, Sunflower), L-Valine, L-Cystine, L-Tryptophan, Dicalcium Phosphate, Potassium Chloride, Thionine Bitartrate, Calcium Carbonate, Potassium Citrate, Sodium Chloride, Silicon Dioxide, Taurine, L-Ascorbic Acid, L-Carnitine, Citric Acid Esters of Mono- and Diglycerides (CITREM), Inositol, Ferrous Sulfate, Sucralose, DL-Alpha Tocopheryl Acetate, Nicotinamide, Zinc Oxide, Copper Gluconate, Calcium D-Pantothenate, Sunflower Lecithin, Thiamine Hydrochloride, Manganese Sulfate, Pyridoxine Hydrochloride, Riboflavin, Vitamin A Palmitate, Sodium Selenite, Beta-Carotene, Ascorbyl Palmitate, Sodium Molybdate, Potassium Iodide, Chromium Chloride, Folic Acid, Vitamin K₂, D-Biotin, Cholecalciferol, Vitamin B₁₂.

Contains: Milk.

Lemonade: Glycomacropeptide (Milk), L-Leucine, Sugar, L-Tyrosine, Citric Acid, L-Arginine, Natural Flavor, Magnesium Hydrogen Phosphate, L-Histidine, Tricalcium Phosphate, L-Valine, L-Cystine, Corn Syrup Solids, L-Tryptophan, Dicalcium Phosphate, Potassium Chloride, Maltodextrin, Choline Bitartrate, Calcium Carbonate, Potassium Citrate, Sodium Chloride, Silicon Dioxide, Taurine, L-Ascorbic Acid, Sucralose, L-Carnitine, Inositol, Ferrous Sulfate, DL-Alpha Tocopheryl Acetate, Nicotinamide, Zinc Oxide, Copper Gluconate, Calcium D-Pantothenate, Thiamine Hydrochloride, Manganese Sulfate, Pyridoxine Hydrochloride, Riboflavin, Vitamin A Palmitate, Sodium Selenite, Beta-Carotene, Sodium Molybdate, Potassium Iodide, Chromium Chloride, Folic Acid, Vitamin K₂, D-Biotin, Cholecalciferol, Cyanocobalamin.

Contains: Milk.

Contains 36 mg of phenylalanine per 20 g protein equivalent

PhenylAde® GMP Mix-In

A powdered medical food, low in phenylalanine providing protein from glycomacropeptide (GMP) and amino acids for the dietary management of phenylketonuria (PKU) in individuals over 1 year of age.

Main Features:

- Low in phenylalanine
- A flexible and concentrated source of GMP-based protein
- Provides 80 g of protein equivalent per 100 g of powder
- Mixes easily with water, flavored drinks or other PKU formula
- Available in cans and pouches
- Displacement: 0.4 mL/g

Indications:

- Phenylketonuria

For details on administration and household measurements, please see the end of this section.

Ordering/Reimbursement Information:

Sodium, mg	1129	141

Ingredients:

Glycomacropeptide (Milk), L-Tyrosine, Glycine, L-Leucine, L-Histidine, L-Arginine, Corn Syrup Solids, L-Cystine, contains 2% or less of the following: L-Tryptophan, Silicon Dioxide, Taurine, L-Carnitine.

Contains: Milk.

Contains 18 mg of phenylalanine per 10 g protein equivalent

Note: Must be combined with an appropriate vitamin & mineral supplement when taken as the sole source of PKU medical food.

PhenylAde® Essential Drink Mix

A phenylalanine-free, powdered medical food for the dietary management of phenylketonuria (PKU) in children and adults, including pregnant women and women of child-bearing age.

Main Features:

- Phenylalanine free
- Complete with essential vitamins and minerals
- 1.5 grams of soluble fiber per serving
- Provides 25 g of protein equivalent and 13 g of fat per 100 g of powder
- Available in Unflavored, Chocolate, Vanilla, Orange Creme, and Strawberry flavors
- Osmolality (at 0.65 kcal/mL): 800 mOsm/kg H₂O based on dilution of 40 g powder (1 scoop) to 7 fl oz (210 mL) water
- Displacement: 0.75 mL/g

Indications:

- Phenylketonuria

For details on administration and household measurements, please see the end of this section.

Ingredients:

Unflavored: Corn Syrup Solids, Maltodextrin, Dextrin, L-Asparagine Monohydrate, L-Glutamine, Medium Chain Triglycerides (Coconut and/or Palm Kernel Oil), L-Tyrosine, High Oleic Sunflower Oil, L-Lysine Acetate, L-Alanine, L-Leucine, L-Serine, L-Arginine, Calcium Phosphate, Canola Oil, Sunflower Oil, L-Valine, Dicalcium Phosphate, Sodium Citrate, Glycine, L-Proline, Potassium Citrate, L-Threonine, L-Isoleucine, Potassium Chloride, L-Histidine, L-Methionine, Choline Bitartrate, L-Tryptophan, Flaxseed Oil, Citric Acid Esters of Mono- and Diglycerides (CITREM), Magnesium Oxide, L-Cystine, Modified Corn Starch, Silicon Dioxide, Sodium Chloride, Ascorbic Acid, Taurine, Inositol, Ferric Orthophosphate, Vitamin E Acetate, L-Carnitine, Sunflower Lecithin, Niacinamide, Ascorbyl Palmitate, Zinc Oxide, Copper Gluconate, Vitamin K₁, Vitamin D₃, Vitamin A Palmitate, Calcium D-Pantothenate, Manganese Sulfate, Mono- and Diglycerides, D-Biotin, Beta-Carotene, Pyridoxine Hydrochloride, Riboflavin, Thiamine Mononitrate, Potassium Iodide, Sodium Selenite, Folic Acid, Vitamin B₁₂, Chromium Chloride, Sodium Molybdate.

Chocolate: Maltodextrin, Sugar, Dextrin, L-Asparagine Monohydrate, L-Glutamine, Medium Chain Triglycerides (Coconut and/or Palm Kernel Oil), L-Tyrosine, High Oleic Sunflower Oil, L-Lysine Acetate, L-Alanine, L-Leucine, L-Serine, Natural and Artificial Flavors, L-Arginine, Calcium Phosphate, Canola Oil, Sunflower Oil, L-Valine, Dicalcium Phosphate, Sodium Citrate, Glycine, L-Proline, Potassium Citrate, L-Threonine, L-Isoleucine, Potassium Chloride, L-Histidine, L-Methionine, Choline Bitartrate, L-Tryptophan, Flaxseed Oil, Citric Acid Esters of Mono- and Diglycerides (CITREM), Magnesium Oxide, L-Cystine, Modified Corn Starch, Silicon Dioxide, Sodium Chloride, Ascorbic Acid, Taurine, Inositol, Ferric Orthophosphate, Vitamin E Acetate, L-Carnitine, Sunflower Lecithin, FD&C Red #40, FD&C Yellow #5, FD&C Blue #2, Niacinamide, Ascorbyl Palmitate, Zinc Oxide, Copper Gluconate, Vitamin K₁, Vitamin D₃, Vitamin A Palmitate, Calcium D-Pantothenate, Manganese Sulfate, Mono- and Diglycerides, D-Biotin, Beta-Carotene, Pyridoxine Hydrochloride, Riboflavin, Thiamine Mononitrate, Potassium Iodide, Sodium Selenite, Folic Acid, Vitamin B₁₂, Chromium Chloride, Sodium Molybdate.

Vanilla: Corn Syrup Solids, Maltodextrin, Dextrin, L-Asparagine Monohydrate, L-Glutamine, Medium Chain Triglycerides (Coconut and/or Palm Kernel Oil), Natural and Artificial Flavors, L-Tyrosine, High Oleic Sunflower Oil, L-Lysine Acetate, L-Alanine, L-Leucine, L-Serine, L-Arginine, Calcium Phosphate, Canola Oil, Sunflower Oil, L-Valine, Dicalcium Phosphate, Sodium Citrate, Glycine, L-Proline, Potassium Citrate, L-Threonine, L-Isoleucine, Potassium Chloride, L-Histidine, L-Methionine, Choline Bitartrate, L-Tryptophan, Flaxseed Oil, Citric Acid Esters of Mono- and Diglycerides (CITREM), Magnesium Oxide, L-Cystine, Modified Corn Starch, Silicon Dioxide, Sodium Chloride, Ascorbic Acid, Taurine, Inositol, Ferric Orthophosphate, Vitamin E Acetate, L-Carnitine, Sunflower Lecithin, Niacinamide, Ascorbyl Palmitate, Zinc Oxide, Copper Gluconate, Vitamin K₁, Vitamin D₃, Vitamin A Palmitate, Calcium D-Pantothenate, Manganese Sulfate, Mono- and Diglycerides, D-Biotin, Beta-Carotene, Pyridoxine Hydrochloride, Riboflavin, Thiamine Mononitrate, Potassium Iodide, Sodium Selenite, Folic Acid, Vitamin B₁₂, Chromium Chloride, Sodium Molybdate.

For the ingredient lists of the remaining flavors, please see the end of this section.

PhenylAde® 60 Drink Mix

A phenylalanine-free, powdered medical food for the dietary management of phenylketonuria (PKU) in individuals over 1 year of age.

Main Features:

- Phenylalanine free
- Complete with essential vitamins and minerals
- Only 50 calories per serving
- Provides 60 g of protein equivalent and <1 g of fat per 100 g of powder
- Available in Unflavored and Vanilla flavor
- Osmolality (at 0.49 kcal/mL): 1256 mOsm/kg H₂O based on dilution of 16.7 g powder (1 scoop) to 3 fl oz (90 mL) water
- Displacement: 0.54 mL/g

Indications:

- Phenylketonuria

For details on administration and household measurements, please see the end of this section.

Contains: Soy.

PhenylAde® Amino Acid Blends

A phenylalanine-free, powdered medical food for the dietary management of phenylketonuria (PKU) in children and adults, including pregnant women and women of child-bearing age.

Main Features:

- Phenylalanine free
- Only 40 calories per serving
- Available in cans and pouches

MTE Amino Acid Blend

- Contains added calcium, phosphorus, magnesium, chromium, molybdenum, and selenium
- 100 g of powder provides 78 g of protein equivalent
- Displacement: 0.47 mL/g

Amino Acid Blend

- 100 g of powder provides 81 g of protein equivalent
- Displacement: 0.48 mL/g

Indications:

- Phenylketonuria

For details on administration and household measurements, please see the end of this section.

Note: Must be combined with adequate fat and an appropriate vitamin & mineral supplement when taken as the sole source of PKU medical food.

PhenylAde® PheBLOC™ LNAA

A medical food containing essential amino acids (large neutral amino acids and lysine) except phenylalanine. For the dietary management of phenylketonuria (PKU) in individuals over 12 years of age.

Main Features:

- Provides full compliment of essential amino acids (without phenylalanine)
- Simplifies diet management
- Suitable for those currently using sapropterin and prefer non-liquid PKU formula
- An option for late-diagnosed or those who have never been on-diet
- Available in tablets and powder

Visit NutriciaLearningCenter.com for guidelines on the usage of PhenylAde PheBLOC LNAA in the dietary management of PKU.

Indications:

- Phenylketonuria

Precautions:

- Not for use when planning or during pregnancy
- Seek medical advice before using with serotonergic medications

For details on administration, please see the end of this section.

Ingredients:

Tablets: L-Tyrosine, Calcium Carbonate, L-Tryptophan, L-Methionine, Microcrystalline Cellulose, L-Arginine, L-Threonine, L-Valine, L-Isoleucine, L-Histidine, L-Leucine, L-Lysine Monohydrochloride, Hydroxypropyl Methylcellulose, Stearic Acid, Croscarmellose Sodium, Magnesium Stearate, Silicon Dioxide.

Powder: L-Tyrosine, Maltodextrin, L-Tryptophan, L-Methionine, L-Arginine, L-Threonine, L-Valine, L-Isoleucine, L-Histidine, L-Leucine, L-Lysine Monohydrochloride.

Note: Must be combined with an appropriate vitamin & mineral supplement when taken as the sole source of PKU medical food.

PKU Maxamum®

A phenylalanine-free powdered medical food for the dietary management of phenylketonuria (PKU) in older children and adults, including pregnant women and women of child-bearing age.

Main Features:

- Phenylalanine free
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrate, vitamins, minerals and trace elements
- Age-appropriate DRI formulation
- Provides 40 g of protein equivalent per 100 g of powder
- Available in Unflavored and Orange flavor
- Contains <1 g of fat per 10 g PE thereby allowing greater flexibility in modifying energy intake
- Osmolality (mOsm/kg H₂O):

Dilution	Unflavored	Orange
1 to 7	770	790
1 to 5	1090	1140
- Displacement: 0.6 mL/g

Indications:

- Phenylketonuria

For details on administration and household measurements, please see the end of this section.

Ordering/Reimbursement Information:

Ingredients:

Orange: Sugar, L-Arginine L-Aspartate, L-Lysine Acetate, L-Glutamine, L-Leucine, L-Tyrosine, Calcium Glycerophosphate, L-Proline, Citric Acid, L-Valine, Glycine, L-Isoleucine, L-Threonine, Magnesium Hydrogen Phosphate, Tripotassium Citrate, L-Serine, L-Histidine, L-Alanine, Artificial Flavor, Calcium Phosphate Dibasic, Choline Bitartrate, L-Cystine, Tricalcium Phosphate, Sodium Chloride, N-Acetyl-L-Methionine, Trisodium Citrate, L-Tryptophan, Soy Lecithin, Magnesium L-Aspartate, Taurine, L-Ascorbic Acid, Acesulfame Potassium, M-Inositol, Ferrous Sulfate, L-Carnitine, Zinc Sulfate, DL-Alpha Tocopheryl Acetate, Niacinamide, Manganese Sulfate, Calcium D-Pantothenate, Cupric Sulfate, Pyridoxine Hydrochloride, Sodium Selenite, Thiamine Hydrochloride, Riboflavin, Beta-Carotene (For Color), Vitamin A Acetate, Folic Acid, Potassium Iodide, Chromium Chloride, Beet Juice Concentrate (For Color), Sodium Molybdate, Phylloquinone, D-Biotin, Vitamin D₃, Cyanocobalamin.

Contains: Soy.

Unflavored: Sugar, L-Arginine L-Aspartate, L-Lysine Acetate, L-Glutamine, L-Leucine, L-Tyrosine, Calcium Glycerophosphate, L-Proline, L-Valine, Glycine, L-Isoleucine, L-Threonine, Tripotassium Citrate, Magnesium Hydrogen Phosphate, L-Serine, L-Histidine, L-Alanine, Calcium Phosphate Dibasic, Choline Bitartrate, L-Cystine, Tricalcium Phosphate, Sodium Chloride, N-Acetyl-L-Methionine, Trisodium Citrate, L-Tryptophan, Soy Lecithin, Magnesium L-Aspartate, Taurine, L-Ascorbic Acid, M-Inositol, Ferrous Sulfate, L-Carnitine, Zinc Sulfate, DL-Alpha Tocopheryl Acetate, Niacinamide, Manganese Sulfate, Calcium D-Pantothenate, Cupric Sulfate, Pyridoxine Hydrochloride, Sodium Selenite, Thiamine Hydrochloride, Riboflavin, Vitamin A Acetate, Folic Acid, Potassium Iodide, Chromium Chloride, Sodium Molybdate, Phylloquinone, D-Biotin, Vitamin D₃, Cyanocobalamin.

Contains: Soy.

PKU Lophlex® LQ

A phenylalanine-free*, ready-to-drink medical food containing amino acids, vitamins and minerals and DHA, based on fruit juice (from concentrate) with natural flavor; for the dietary management of phenylketonuria (PKU) in individuals 4 years and older, including pregnant women and women of child-bearing age.

Main Features:

- Phenylalanine free*
- Low volume; provides 20 g PE in just 4.2 fl oz (125 mL)
- Convenient ready-to-drink
- Made with real fruit juice from concentrate
- Provides 150 mg of DHA per pouch
- Available in 3 flavors: Juicy Tropical (contains 28.4% juice), Juicy Orange (contains 45.5% juice), and Mixed Berry Blast (contains 44.1% juice)
- Osmolality (at 0.96 kcal/mL): 2460 mOsm/kg H₂O

Indications:

- Phenylketonuria

For details on administration, please see the end of this section.

Ordering/Reimbursement Information:

Product Code	Reimbursement Code	HCPCS Code [†]	Product Packaging	Calories Per Pouch
86051 Juicy Orange	49735-0195-35	B4157 and B4162	30 x 4.2 fl oz (125 mL)	120
86021 Mixed Berry Blast	49735-0161-30	B4157 and B4162	30 x 4.2 fl oz (125 mL)	120
86055 Juicy Tropical	49735-0161-29	B4157 and B4162	30 x 4.2 fl oz (125 mL)	120

WIC[‡]: Contact your state WIC office to determine availability. For more reimbursement information see Resources.

[†] S9435 = For individuals who submit their bills to insurance on their own.

*May contain traces of phenylalanine (PHE) from fruit juice concentrate at a level of <5 mg per 100 mL.

Ingredients:

Juicy Tropical: Water, Orange Juice Concentrate (18%), Mango Puree Concentrate (6.4%), Mandarin Juice Concentrate (4.0%), Corn Syrup Solids, L-Leucine, L-Proline, L-Arginine, Glycine, L-Tyrosine, L-Lysine Acetate, L-Valine, L-Aspartic Acid, L-Isoleucine, Dicalcium Phosphate, L-Alanine, L-Serine, L-Threonine, Citric Acid, L-Histidine, L-Lysine L-Aspartate, Maltodextrin, Magnesium Acetate, L-Cystine, Choline Bitartrate, L-Tryptophan, Sugar, C. *cohnii* Oil**, N-Acetyl-L-Methionine, Microcrystalline Cellulose, L-Ascorbic Acid, Taurine, L-Methionine, Guar Gum, Sunflower Lecithin, Xanthan Gum, M-Inositol, Natural Flavor, Potassium Sorbate, Ferrous Lactate, Cellulose Gum, Acesulfame Potassium, L-Carnitine, Sodium Benzoate, Zinc Sulfate, Niacinamide, DL-Alpha Tocopheryl Acetate, Calcium D-Pantothenate, Manganese Sulfate, Cupric Sulfate, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Vitamin A Palmitate, Riboflavin, Folic Acid, Potassium Iodide, Ascorbyl Palmitate, Mixed Tocopherols, Sodium Molybdate, D-Biotin, Sodium Selenite, Chromium Chloride, Phylloquinone, Vitamin D₃, Cyanocobalamin.

Juicy Orange: Orange Juice Concentrate (45.5%), Water, Corn Syrup Solids, L-Leucine, Citric Acid, L-Proline, L-Arginine, Glycine, L-Tyrosine, L-Lysine Acetate, L-Valine, L-Aspartic Acid, L-Isoleucine, Dicalcium Phosphate, L-Alanine, L-Serine, L-Threonine, L-Histidine, L-Lysine L-Aspartate, Maltodextrin, Magnesium Acetate, L-Cystine, Choline Bitartrate, L-Tryptophan, Sugar, C. *cohnii* Oil**, N-Acetyl-L-Methionine, Microcrystalline Cellulose, Natural Flavor, L-Ascorbic Acid, Taurine, L-Methionine, Guar Gum, Sunflower Lecithin, Xanthan Gum, M-Inositol, Potassium Sorbate, Sucralose, Ferrous Lactate, Cellulose Gum, Acesulfame Potassium, L-Carnitine, Sodium Benzoate, Zinc Sulfate, Niacinamide, DL-Alpha Tocopheryl Acetate, Calcium D-Pantothenate, Manganese Sulfate, Cupric Sulfate, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Vitamin A Palmitate, Riboflavin, Folic Acid, Potassium Iodide, Ascorbyl Palmitate, Mixed Tocopherols, Sodium Molybdate, D-Biotin, Sodium Selenite, Chromium Chloride, Phylloquinone, Vitamin D₃, Cyanocobalamin.

Mixed Berry Blast: Water, Apple Juice Concentrate (34.1%), Grape Juice Concentrate (6.9%), Blackcurrant Juice Concentrate (2.5%), L-Leucine, Citric Acid, L-Proline, L-Arginine, Glycine, L-Tyrosine, L-Lysine Acetate, Corn Syrup Solids, L-Valine, L-Aspartic Acid, L-Isoleucine, Dicalcium Phosphate, L-Alanine, L-Serine, L-Threonine, Elderberry Juice Concentrate (0.6%), L-Histidine, L-Lysine L-Aspartate, Maltodextrin, Magnesium Acetate, L-Cystine, Choline Bitartrate, L-Tryptophan, Sugar, C. *cohnii* Oil**, N-Acetyl-L-Methionine, Microcrystalline Cellulose, Natural Flavor, L-Ascorbic Acid, Fruit Concentrate, Taurine, L-Methionine, Guar Gum, Sunflower Lecithin, Xanthan Gum, M-Inositol, Potassium Sorbate, Sucralose, Ferrous Lactate, Cellulose Gum, Acesulfame Potassium, L-Carnitine, Sodium Benzoate, Zinc Sulfate, Niacinamide, DL-Alpha Tocopheryl Acetate, Calcium D-Pantothenate, Manganese Sulfate, Cupric Sulfate, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Vitamin A Palmitate, Riboflavin, Folic Acid, Potassium Iodide, Ascorbyl Palmitate, Mixed Tocopherols, Sodium Molybdate, D-Biotin, Sodium Selenite, Chromium Chloride, Phylloquinone, Vitamin D₃, Cyanocobalamin.

**A source of docosahexaenoic acid (DHA).

PKU Lophlex® Powder

A low volume, phenylalanine-free, powdered medical food for the dietary management of phenylketonuria (PKU) in older children and adults, including pregnant women and women of child-bearing age.

Main Features:

- Phenylalanine free
- Low volume and low calorie
- Contains vitamins, minerals, and trace elements
- Age-appropriate DRI formulation
- Provides 10 g of protein equivalent per pouch
- Available in Berry and Orange flavors
- Osmolality (mOsm/kg H₂O):

Dilution	Orange	Berry
1 to 5	1390	1340

Indications:

- Phenylketonuria

For details on administration, please see the end of this section.

L-Glutamine	0.50

Ingredients:

Blackcurrant-Apple: Sucrose, L-Lysine Aspartate, L-Leucine, L-Tyrosine, Artificial Flavors, L-Proline, L-Arginine, L-Valine, L-Isoleucine, Glycine, Malic Acid, L-Threonine, L-Glutamine, Corn Syrup Solids, L-Serine, L-Histidine, L-Alanine, L-Cystine, N-Acetyl-L-Methionine, L-Tryptophan, Soy Lecithin, Taurine, L-Carnitine, Sodium Saccharin, Artificial Color.

Contains: Soy.

Tropical Surprise: Sucrose, L-Lysine Aspartate, Artificial Flavors, L-Leucine, L-Tyrosine, L-Proline, L-Arginine, L-Valine, Citric Acid, Glycine, L-Isoleucine, L-Threonine, L-Glutamine, Corn Syrup Solids, L-Serine, L-Histidine, L-Alanine, L-Cystine, N-Acetyl-L-Methionine, L-Tryptophan, Soy Lecithin, Acesulfame Potassium, Taurine, L-Carnitine, Artificial Color.

Contains: Soy.

Note: Must be combined with an appropriate vitamin & mineral supplement when taken as the sole source of PKU medical food.

MSUD Anamix® Early Years

A valine-, leucine-, and isoleucine-free powdered infant formula with iron, for the dietary management of maple syrup urine disease (MSUD). Contains DHA and ARA, and a unique blend of prebiotics.

Main Features:

- Valine-, leucine-, and isoleucine-free powdered infant formula with iron
- Includes DHA & ARA
- Contains a prebiotic blend of galacto-oligosaccharides (GOS) and fructo-oligosaccharides (FOS)
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrates, fat, vitamins, minerals and trace elements
- Provides 13.5 g of protein equivalent (PE) per 100 g of powder
- Unflavored powder
- Osmolality (at 0.7 kcal/mL): 380 mOsm/kg H₂O based on dilution of 5 g powder (1 unpacked level scoop) to 1 fl oz (30 mL) water
- Displacement: 0.75 mL/g

Indications:

- Maple syrup urine disease (MSUD)

For details on administration and household measurements, please see the end of this section.

Contains: Soy Oil, Coconut Oil, Milk.

*A source of Arachidonic Acid (ARA)
**A source of Docosahexaenoic Acid (DHA)

Contains GOS/FOS 0.8 g per 100 mL

Complex MSD® Essential

A valine-, leucine-, and isoleucine-free powdered medical food for the dietary management of maple syrup urine disease (MSUD) in children and adults, including pregnant women and women of child bearing age.

Main Features:

- Valine, leucine, and isoleucine free
- Amino acid profile specifically designed for MSUD; clinically researched in two studies[†]
- Complete with essential vitamins and minerals
- Provides 25 g of protein equivalent per 100 g of powder
- Available in Vanilla flavor
- Osmolality (at 0.63 kcal/mL): 813 mOsm/kg H₂O based on dilution of 40 g powder (1 scoop) to 7 fl oz (210 mL) water
- Displacement: 0.75 mL/g

Indications:

- Maple syrup urine disease (MSUD)

For details on administration and household measurements, please see the end of this section.

Complex MSD® Amino Acid Blend

A valine-, leucine-, and isoleucine-free powdered medical food for the dietary management of maple syrup urine disease (MSUD) in children and adults.

Main Features:

- Valine, leucine, and isoleucine free
- Amino acid profile specifically designed for MSUD; clinically researched in two studies[†]
- Does not contain fat, carbohydrates, vitamins or minerals
- 40 calories per serving
- Provides 81 g of protein equivalent per 100 g of powder
- Unflavored powder
- Displacement: 0.48 mL/g

Indications:

- Maple syrup urine disease (MSUD)

For details on administration and household measurements, please see the end of this section.

MSUD Maxamum®

A valine-, leucine-, and isoleucine-free powdered medical food for the dietary management of maple syrup urine disease (MSUD) in older children and adults, including pregnant women and women of child-bearing age.

Main Features:

- Valine, leucine, and isoleucine free
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrate, vitamins, minerals and trace elements
- Age-appropriate DRI formulation
- Provides 40 g of protein equivalent per 100 g of powder
- Available in Orange flavor
- Contains <1 g of fat per 10 g PE thereby allowing greater flexibility in modifying energy intake
- Osmolality (mOsm/kg H₂O):
Dilution
1 to 7 750
1 to 5 1090
- Displacement: 0.6 mL/g

Indications:

- Maple syrup urine disease (MSUD)

For details on administration and household measurements, please see the end of this section.

Contains: Soy.

MSUD Lophlex® LQ

A valine-, leucine-, and isoleucine-free* ready-to-drink medical food containing amino acids, carbohydrates, vitamins, minerals and DHA, based on mixed fruit juices (from concentrate) with natural flavor; for the dietary management of maple syrup urine disease (MSUD) in individuals 4 years and older, including pregnant women and women of child-bearing age.

Main Features:

- Valine, leucine, and isoleucine free*
- Low volume; provides 20 g PE in just 4.2 fl oz (125 mL)
- Convenient ready-to-drink
- No artificial flavors
- Contains 44.1% juice
- Provides 150 mg of DHA per pouch
- Available in Mixed Berry Blast flavor
- Osmolality (at 0.96 kcal/mL): 2460 mOsm/kg H₂O

Indications:

- Maple syrup urine disease (MSUD)

For details on administration, please see the end of this section.

**A Source of Docosahexaenoic Acid (DHA).

*May contain traces of leucine, isoleucine and valine from fruit juice concentrate at levels of <1.5 mg per 100 mL.

IVA Anamix® Early Years

A leucine-free powdered infant formula with iron, for the dietary management of isovaleric acidemia (IVA). Contains DHA and ARA, and a unique blend of prebiotics.

Main Features:

- Leucine-free powdered infant formula with iron
- Includes DHA & ARA
- Contains a prebiotic blend of galacto-oligosaccharides (GOS) and fructo-oligosaccharides (FOS)
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrates, fat, vitamins, minerals and trace elements
- Provides 13.5 g of protein equivalent (PE) per 100 g of powder
- Unflavored powder
- Osmolality (at 0.7 kcal/mL): 380 mOsm/kg H₂O based on dilution of 5 g powder (1 unpacked level scoop) to 1 fl oz (30 mL) water
- Displacement: 0.75 mL/g

Indications:

- Isovaleric acidemia
- Other proven disorders of leucine metabolism

For details on administration and household measurements, please see the end of this section.

Ingredients:

Corn Syrup Solids, Refined Vegetable Oils (High Oleic Sunflower, Soy, Non-Hydrogenated Coconut, Canola, Sunflower), Galacto-oligosaccharides (GOS) (Milk), L-Lysine L-Glutamate, L-Proline, Glycine, L-Arginine, Tricalcium Phosphate, L-Aspartic Acid, Citric Acid Esters of Mono- and Diglycerides (CITREM), L-Tyrosine, L-Phenylalanine, L-Alanine, L-Threonine, L-Histidine, L-Serine, Potassium Chloride, Fructo-oligosaccharides (FOS), Tripotassium Citrate, L-Valine, L-Cystine, L-Isoleucine, Sodium Phosphate Dibasic, Magnesium Acetate, *M. alpina* Oil*, L-Methionine, L-Glutamic Acid, L-Tryptophan, Choline Bitartrate, *C.ohnii* Oil**, L-Glutamine, Sodium Chloride, M-Inositol, L-Ascorbic Acid, Taurine, Ferrous Sulfate, Zinc Sulfate, L-Carnitine, DL-Alpha Tocopheryl Acetate, Calcium D-Pantothenate, Niacinamide, Ascorbyl Palmitate, Manganese Sulfate, Cupric Sulfate, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Riboflavin, Vitamin A Acetate, DL-Alpha Tocopherol, Mixed Tocopherols, Potassium Iodide, Chromium Chloride, Folic Acid, Phylloquinone, Sodium Selenite, Sodium Molybdate, D-Biotin, Vitamin D₃, Cyanocobalamin.

Contains: Soy Oil, Coconut Oil, Milk.

*A source of Arachidonic Acid (ARA)

**A source of Docosahexaenoic Acid (DHA)

Contains GOS/FOS 0.8 g per 100 mL

IVA Anamix® Next

A leucine-free powdered medical food for the dietary management of isovaleric acidemia (IVA) in individuals over 1 year of age.

Main Features:

- Leucine free
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrate (including a multi-fiber blend), fat (including DHA), vitamins, minerals, and trace elements
- Provides 28 g of protein equivalent (PE) and 12.5 g of fat per 100 g of powder
- Available in Plain flavor
- Osmolality (at 11 kcal/mL): 1220 mOsm/kg H₂O based on dilution of 36 g powder (approx. 4 scoops) to 3.5 fl oz (100 mL) water
- Displacement: 0.72 mL/g

Indications:

- Isovaleric acidemia
- Other proven disorders of leucine metabolism

For details on administration and household measurements, please see the end of this section.

Ordering/Reimbursement Information:

Product Code	Reimbursement Code	HCPCS Code*	Product Packaging	Calories Per Can
89471	49735-0194-71	B4157 or B4162	6 x 400 g (14.1 oz)	1508

WIC†: Contact your state WIC office to determine availability. For more reimbursement information see *Resources*.

* S9435 = For individuals who submit their bills to insurance on their own.

Contains: Coconut Oil, Soy.

*A source of Docosahexaenoic Acid (DHA)

IVA Maxamum®

A leucine-free powdered medical food for the dietary management of isovaleric acidemia (IVA) and other proven disorders of leucine metabolism in older children and adults, including pregnant women and women of child-bearing age.

Main Features:

- Leucine free
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrate, vitamins, minerals and trace elements (including iron, selenium and chromium)
- Age-appropriate DRI formulation
- Provides 40 g of protein equivalent per 100 g of powder
- Available in Orange flavor
- Contains <1 g of fat per 10 g PE thereby allowing greater flexibility in modifying energy intake
- Osmolality (mOsm/kg H₂O):
Dilution
1 to 7 800
1 to 5 1120
- Displacement: 0.6 mL/g

Indications:

- Isovaleric acidemia
- Other proven disorders of leucine metabolism

For details on administration and household measurements, please see the end of this section.

Contains: Soy.

GA-1 Anamix® Early Years

A lysine-free, low tryptophan powdered infant formula with iron, for the dietary management of glutaric aciduria type 1 (GA-1). Contains DHA and ARA, and a unique blend of prebiotics.

Main Features:

- Lysine-free, low tryptophan powdered infant formula with iron
- Includes DHA & ARA
- Contains a prebiotic blend of galacto-oligosaccharides (GOS) and fructo-oligosaccharides (FOS)
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrates, fat, vitamins, minerals and trace elements
- Provides 13.5 g of protein equivalent (PE) per 100 g of powder
- Unflavored powder
- Osmolality (at 0.7 kcal/mL): 380 mOsm/kg H₂O based on dilution of 5 g powder (1 unpacked level scoop) to 1 fl oz (30 mL) water
- Displacement: 0.75 mL/g

Indications:

- Glutaric aciduria type 1

For details on administration and household measurements, please see the end of this section.

Contains: Soy Oil, Coconut Oil, Milk.

*A source of Arachidonic Acid (ARA)

**A source of Docosahexaenoic Acid (DHA)

Contains GOS/FOS 0.8 g per 100 mL

GlutarAde® Essential

A lysine-free and low tryptophan powdered medical food for the dietary management of glutaric aciduria type 1 (GA-1) in children and adults, including pregnant women and women of child bearing age.

Main Features:

- Lysine free
- Amino acid profile specifically designed for GA-1; clinically researched in two studies[†]
- Contains arginine and 150 mg of tryptophan per 100 g of powder
- Contains a source of Omega-3 fatty acids
- Provides 25 g of protein equivalent per 100 g of powder
- Available in Vanilla flavor
- Osmolality (at 0.64 kcal/mL): 797 mOsm/kg H₂O based on dilution of 40 g powder (1 scoop) to 7 fl oz (210 mL) water
- Displacement: 0.75 mL/g

Indications:

- Glutaric aciduria type 1

For details on administration and household measurements, please see the end of this section.

GlutarAde® Amino Acid Blend

A lysine-free and low tryptophan powdered medical food for the dietary management of glutaric aciduria type 1 (GA-1) in children and adults.

Main Features:

- Lysine free
- Amino acid profile specifically designed for GA-1; clinically researched in two studies[†]
- Contains arginine and 480 mg of tryptophan per 100 g of powder
- Does not contain fat, carbohydrates, vitamins or minerals
- 40 calories per serving
- Provides 81 g of protein equivalent per 100 g of powder
- Unflavored powder
- Displacement: 0.48 mL/g

Indications:

- Glutaric aciduria type 1

For details on administration and household measurements, please see the end of this section.

Ordering/Reimbursement Information:

HCU Anamix® Early Years

A methionine-free powdered infant formula with iron, for the dietary management of vitamin B₆ non-responsive homocystinuria (HCU) or hypermethioninemia. Contains DHA and ARA, and a unique blend of prebiotics.

Main Features:

- Methionine-free powdered infant formula with iron
- Includes DHA & ARA
- Contains a prebiotic blend of galacto-oligosaccharides (GOS) and fructo-oligosaccharides (FOS)
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrates, fat, vitamins, minerals and trace elements
- Provides 13.5 g of protein equivalent (PE) per 100 g of powder
- Unflavored powder
- Osmolality (at 0.7 kcal/mL): 380 mOsm/kg H₂O based on dilution of 5 g powder (1 unpacked level scoop) to 1 fl oz (30 mL) water
- Displacement: 0.75 mL/g

Indications:

- Vitamin B₆ non-responsive homocystinuria
- Hypermethioninemia

For details on administration and household measurements, please see the end of this section.

Contains: Soy Oil, Coconut Oil, Milk.

*A source of Arachidonic Acid (ARA)

**A source of Docosahexaenoic Acid (DHA)

Contains GOS/FOS 0.8 g per 100 mL

HCU Anamix[®] Next

A methionine-free, powdered medical food for the dietary management of homocystinuria (HCU) in individuals over 1 year of age.

Main Features:

- Methionine free
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrate (including a multi-fiber blend), fat (including DHA), vitamins, minerals, and trace elements
- Provides 28 g of protein equivalent and 12.5 g of fat per 100 g of powder
- Available in Plain flavor
- Osmolality (at 11 kcal/mL): 1340 mOsm/kg H₂O based on dilution of 36 g powder (approx 4 scoops) to 3.5 fl oz (100 mL) water
- Displacement: 0.72 mL/g

Indications:

- Vitamin B₆ non-responsive homocystinuria
- Hypermethioninemia

For details on administration and household measurements, please see the end of this section.

Contains: Coconut Oil, Soy.

* A source of Docosahexaenoic Acid (DHA)

HCU Maxamum®

A methionine-free powdered medical food for the dietary management of vitamin B₆ non-responsive homocystinuria (HCU) or hypermethioninemia in older children and adults, including pregnant women and women of child-bearing age.

Main Features:

- Methionine free
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrate, vitamins, minerals and trace elements
- Age-appropriate DRI formulation
- Provides 40 g of protein equivalent (PE) per 100 g of powder
- Available in Orange flavor
- Contains <1 g of fat per 10 g PE thereby allowing greater flexibility in modifying energy intake
- Osmolality (mOsm/kg H₂O):
Dilution
1 to 7 800
1 to 5 1190
- Displacement: 0.6 mL/g

Indications:

- Vitamin B₆ non-responsive homocystinuria
- Hypermethioninemia

For details on administration and household measurements, please see the end of this section.

Contains: Soy.

HCU Lophlex® LQ

A methionine-free*, ready-to-drink medical food containing amino acids, carbohydrates, vitamins, minerals and DHA, based on mixed fruit juices (from concentrate) with natural flavor; for the dietary management of homocystinuria (HCU) in individuals 4 years and older, including pregnant women and women of child-bearing age.

Main Features:

- Methionine free*
- Low volume: provides 20 g PE in just 4.2 fl oz (125 mL)
- Convenient ready-to-drink
- No artificial flavors
- Contains 44.1% juice
- Provides 150 mg of DHA per pouch
- Available in Mixed Berry Blast flavor
- Osmolality (at 0.96 kcal/mL): 2460 mOsm/kg H₂O

Indications:

- Vitamin B₆ non-responsive homocystinuria
- Hypermethioninemia

For details on administration and household measurements, please see the end of this section.

Water, Apple Juice Concentrate (34.1%), Grape Juice Concentrate (6.9%), Blackcurrant Juice Concentrate (2.5%), L-Arginine L-Aspartate, L-Leucine, L-Lysine Acetate, Citric Acid, L-Proline, L-Tyrosine, Glycine, L-Valine, L-Serine, L-Isoleucine, Corn Syrup Solids, Dicalcium Phosphate, L-Alanine, L-Threonine, L-Phenylalanine, L-Cystine, L-Histidine, Elderberry Juice Concentrate (0.6%), Maltodextrin, Magnesium L-Aspartate, Magnesium Acetate, L-Tryptophan, Choline Bitartrate, *C. cohnii* Oil**, Sugar, Microcrystalline Cellulose, Natural Flavor, Fruit Concentrate, L-Ascorbic Acid, Taurine, Guar Gum, Sunflower Lecithin, Xanthan Gum, M-Inositol, Potassium Sorbate, Sucralose, Acesulfame Potassium, Ferrous Lactate, Sodium Benzoate, Zinc Sulfate, L-Carnitine, Niacinamide, DL-Alpha Tocopheryl Acetate, Calcium D-Pantothenate, Manganese Sulfate, Cupric Sulfate, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Vitamin A Palmitate, Riboflavin, Folic Acid, Potassium Iodide, Ascorbyl Palmitate, Mixed Tocopherols, Sodium Molybdate, D-Biotin, Sodium Selenite, Chromium Chloride, Phylloquinone, Vitamin D₃, Cyanocobalamin.

**A Source of Docosahexaenoic Acid (DHA).

*May contain traces of methionine from fruit juice concentrate at a level of <2 mg per 100 mL.

MMA/PA Anamix® Early Years

A methionine-, threonine-, and valine-free, low isoleucine powdered infant formula with iron, for the dietary management of methylmalonic or propionic acidemia (MMA/PA). Contains DHA and ARA, and a unique blend of prebiotics.

Main Features:

- A methionine-, threonine-, and valine-free, low isoleucine powdered infant formula with iron
- Includes DHA & ARA
- Contains a prebiotic blend of galacto-oligosaccharides (GOS) and fructo-oligosaccharides (FOS)
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrates, fat, vitamins, minerals and trace elements
- Provides 13.5 g of protein equivalent (PE) per 100 g of powder
- Unflavored powder
- Osmolality (at 0.7 kcal/mL): 380 mOsm/kg H₂O based on dilution of 5 g powder (1 unpacked level scoop) to 1 fl oz (30 mL) water
- Displacement: 0.75 mL/g

Indications:

- Methylmalonic acidemia
- Propionic acidemia

For details on administration and household measurements, please see the end of this section.

Contains: Soy Oil, Coconut Oil, Milk.

*A source of Arachidonic Acid (ARA)

**A source of Docosahexaenoic Acid (DHA)

Contains GOS/FOS 0.8 g per 100 mL

MMA/PA Anamix[®] Next

A methionine-, threonine-, and valine-free, low isoleucine powdered medical food for the dietary management of methylmalonic acidemia (MMA) and propionic acidemia (PA) in individuals over 1 year of age.

Main Features:

- Methionine, threonine, and valine free; low in isoleucine
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrate (including a multi-fiber blend), fat (including DHA), vitamins, minerals, and trace elements
- Provides 28 g of protein equivalent and 12.5 g of fat per 100 g of powder
- Available in Plain flavor
- Osmolality (at 1.1 kcal/mL): 1220 mOsm/kg H₂O based on dilution of 36 g powder (approx 4 scoops) to 3.5 fl oz (100 mL) water
- Displacement: 0.72 mL/g

Indications:

- Methylmalonic acidemia
- Propionic acidemia

For details on administration and household measurements, please see the end of this section.

Ordering/Reimbursement Information:

Product Code	Reimbursement Code	HCPCS Code*	Product Packaging	Calories Per Can

Contains: Coconut Oil, Soy.

*A source of Docosahexaenoic Acid (DHA)

MMA/PA Maxamum®

A methionine-, threonine-, and valine-free, low isoleucine medical food for the dietary management of vitamin B₁₂ non-responsive methylmalonic acidemia (MMA) or propionic acidemia (PA) in older children and adults, including pregnant women and women of child-bearing age.

Main Features:

- Methionine, threonine, and valine free; low in isoleucine
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrate, vitamins, minerals and trace elements
- Age-appropriate DRI formulation
- Provides 40 g of protein equivalent per 100 g of powder
- Available in Orange flavor
- Contains <1 g of fat per 10 g PE thereby allowing greater flexibility in modifying energy intake
- Osmolality (mOsm/kg H₂O):
Dilution
1 to 7 740
1 to 5 1070
- Displacement: 0.6 mL/g

Indications:

- Methylmalonic acidemia
- Propionic acidemia

For details on administration and household measurements, please see the end of this section.

Contains: Soy.

TYR Anamix® Early Years

A phenylalanine- and tyrosine-free powdered infant formula with iron, for the dietary management of tyrosinemia (TYR). Contains DHA and ARA, and a unique blend of prebiotics.

Main Features:

- A phenylalanine- and tyrosine-free powdered infant formula with iron
- Includes DHA & ARA
- Contains a prebiotic blend of galacto-oligosaccharides (GOS) and fructo-oligosaccharides (FOS)
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrates, fat, vitamins, minerals and trace elements
- Provides 13.5 g of protein equivalent (PE) per 100 g of powder
- Unflavored powder
- Osmolality (at 0.7 kcal/mL): 380 mOsm/kg H₂O based on dilution of 5 g powder (1 unpacked level scoop) to 1 fl oz (30 mL) water
- Displacement: 0.75 mL/g

Indications:

- Tyrosinemia

For details on administration and household measurements, please see the end of this section.

Contains: Soy Oil, Coconut Oil, Milk.

*A source of Arachidonic Acid (ARA)

**A source of Docosahexaenoic Acid (DHA)

Contains GOS/FOS 0.8 g per 100 mL

TYR Anamix® Next

A phenylalanine- and tyrosine-free, powdered medical food for the dietary management of tyrosinemia (TYR) in individuals over 1 year of age.

Main Features:

- Phenylalanine and tyrosine free
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrate (including a multi-fiber blend), fat (including DHA), vitamins, minerals and trace elements
- Provides 28 g of protein equivalent (PE) and 12.5 g of fat per 100 g of powder
- Available in a Plain flavor
- Osmolality (at 1.1 kcal/mL): 1220 mOsm/kg H₂O based on dilution of 36 g powder (approx 4 scoops) to 3.5 fl oz (100 mL) water
- Displacement: 0.72 mL/g

Indications:

- Tyrosinemia

For details on administration and household measurements, please see the end of this section.

Taurine	0.05	0.02		

Ingredients:

Corn Syrup Solids, Refined Vegetable Oils (High Oleic Sunflower, Canola, Medium Chain Triglycerides (Palm Kernel and/or Coconut Oil), Sunflower), L-Alanine, Glycine, Fructo-oligosaccharides, L-Glutamine, L-Lysine Acetate, Inulin, L-Threonine, Corn Starch, L-Cystine, L-Proline, Calcium Phosphate Dibasic, L-Leucine, Microcrystalline Cellulose, Artificial Flavor, L-Valine, Gum Arabic, L-Arginine, L-Isoleucine, L-Serine, Tripotassium Citrate, Trisodium Citrate, Calcium Chloride, L-Histidine, Maltodextrin, Choline Bitartrate, Magnesium Hydrogen Phosphate, L-Methionine, L-Tryptophan, Magnesium L-Aspartate, Citric Acid Esters of Mono- and Diglycerides (CITREM), C. *cohnii* Oil*, Tricalcium Citrate, L-Ascorbic Acid, Soy Fiber, M-Inositol, Taurine, Ferrous Sulfate, Sunflower Lecithin, L-Carnitine, Zinc Sulfate, DL-Alpha Tocopheryl Acetate, Calcium D-Pantothenate, Manganese Sulfate, Niacinamide, Cupric Sulfate, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Riboflavin, Vitamin A Acetate, Ascorbyl Palmitate, Folic Acid, Potassium Iodide, Mixed Tocopherols, Sodium Molybdate, Sodium Selenite, Chromium Chloride, DL-Alpha Tocopherol, Vitamin D₃, Phylloquinone, D-Biotin, Cyanocobalamin

Contains: Coconut Oil, Soy.

*A source of Docosahexaenoic Acid (DHA)

TYR Lophlex® GMP MIX-IN

A powdered medical food, low in phenylalanine and tyrosine, containing a mix of glycomacropeptide (GMP), essential and non-essential amino acids with small amounts of carbohydrates and some minerals. For the dietary management of tyrosinemia (TYR) in individuals over 1 year of age.

Main Features:

- Low in phenylalanine and tyrosine
- A flexible source of GMP-based protein to help patients adhere to their nutritional goals
- The highest amount of protein per 100 g of powder of any TYR product
- Mix into TYR formula to increase protein from a GMP-based source
- Mixes easily with flavored drinks and foods for variety
- Provides only 40 kcal and less than 0.5 g of sugar per pouch
- No artificial flavors or colors

Indications:

- Tyrosinemia

For details on administration, please see the end of this section.

Ordering/Reimbursement Information:

Product Code	Reimbursement Code	HCPCS Code*	Product Packaging	Calories Per Pouch
135757	49735-0157-57	B4155	20 x 12.5 g (0.44 oz)	40

WIC†: Contact your state WIC office to determine availability. For more reimbursement information see *Resources*.

*S9435 = For individuals who submit their bills to insurance on their own.

Ingredients:

Glycomacropeptide (Milk), L-Leucine, Glycine, L-Lysine Acetate, L-Histidine, L-Arginine, L-Valine. Contains 2% or less of the following: L-Tryptophan, L-Cystine, L-Methionine, Corn Syrup Solids, Silicon Dioxide, Taurine, L-Carnitine.

Contains: Milk.

Contains 18 mg of phenylalanine and 3.5 mg tyrosine per 10 g protein equivalent

Note: Must be combined with an appropriate vitamin & mineral supplement when taken as a sole source of TYR medical food.

UCD Anamix® Infant

An essential amino acid-based powdered infant formula with iron, for the dietary management of urea cycle disorders (UCD); hyperammonemia, hyperornithinemia, homocitrullinemia (HHH) syndrome and gyrate atrophy.

UCD Anamix Infant is available under FDA enforcement discretion and therefore is imported with European labels in English and Spanish.

Main Features:

- Contains essential amino acids with increased level of branched-chain amino acids (BCAA)
- Includes DHA & ARA
- Contains a balanced mixture of essential amino acids, carbohydrates, fats, vitamins, minerals and trace elements
- Provides 7.5 g of protein equivalent (PE) per 100 g of powder
- Unflavored powder
- Osmolality (at 0.7 kcal/mL): 310 mOsm/kg H₂O based on dilution of 5 g powder (1 unpacked level scoop) to 1 fl oz (30 mL) water
- Displacement: 0.67 mL/g

Indications:

- Urea Cycle Disorders
- Hyperammonemia, Hyperornithinemia, Homocitrullinemia (HHH) syndrome
- Gyrate atrophy

For details on administration and household measurements, please see the end of this section.

*A source of Docosahexaenoic Acid (DHA)

**A source of Arachidonic Acid (ARA)

UCD Anamix® Junior

A powdered medical food containing essential amino acids (with increased levels of branched chain amino acids (BCAAs) and tryptophan), carbohydrates, fat, vitamins and minerals; for the dietary management of urea cycle disorders (UCD); hyperammonemia, hyperornithinemia, homocitrullinemia (HHH) syndrome; and gyrate atrophy in individuals over 1 year of age.

Main Features:

- Contains essential amino acids to help maintain a positive nitrogen balance in UCD
- Amino acid profile rich in BCAAs for efficient and optimal protein synthesis for children with UCD
- Sufficient non-protein calories to help prevent catabolism
- Complete with essential vitamins and minerals
- Available in Unflavored and Vanilla flavor
- Osmolality: 1040 mOsm/kg H₂O based on a 1 to 3.5 dilution
- Displacement: 0.70 mL/g

Indications:

- Urea Cycle Disorders (UCD)
- Hyperammonemia, Hyperornithinemia, Homocitrullinemia (HHH) syndrome
- Gyrate atrophy

For details on administration and household measurements, please see the end of this section.

Ingredients:

Unflavored: Corn Syrup Solids, Refined Vegetable Oils (High Oleic Safflower, Canola, Fractionated Coconut), Sugar, L-Leucine, Sodium Phosphate Dibasic, Tripotassium Citrate, Tricalcium Citrate, Tricalcium Phosphate, L-Lysine Hydrochloride, L-Valine, L-Isoleucine, Magnesium Hydrogen Phosphate, L-Threonine, Choline Bitartrate, L-Tyrosine, Potassium Chloride, Citric Acid Ester of Mono- And Diglycerides (CITREM), L-Phenylalanine, L-Histidine, L-Tryptophan, L-Cystine, L-Methionine, L-Ascorbic Acid, M-Inositol, Ferrous Sulfate, Taurine, Zinc Sulfate, DL-Alpha Tocopheryl Acetate, Manganese Sulfate, Niacinamide, L-Carnitine, Calcium D-Pantothenate, Cupric Sulfate, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Riboflavin, Vitamin A Acetate, Folic Acid, Potassium Iodide, Sodium Selenite, Chromium Chloride, Sodium Molybdate, Phylloquinone, D-Biotin, Vitamin D₃, Cyanocobalamin.

Contains: Coconut Oil.

Vanilla: Corn Syrup Solids, Refined Vegetable Oils (High Oleic Safflower, Canola, Fractionated Coconut), Sugar, L-Leucine, Sodium Phosphate Dibasic, Tripotassium Citrate, Tricalcium Citrate, Artificial Flavor, Tricalcium Phosphate, L-Lysine Hydrochloride, L-Valine, L-Isoleucine, Magnesium Hydrogen Phosphate, L-Threonine, Choline Bitartrate, L-Tyrosine, Potassium Chloride, Citric Acid Ester of Mono- And Diglycerides (CITREM), L-Phenylalanine, L-Histidine, L-Tryptophan, L-Cystine, L-Methionine, L-Ascorbic Acid, M-Inositol, Ferrous Sulfate, Taurine, Zinc Sulfate, DL-Alpha Tocopheryl Acetate, Manganese Sulfate, Niacinamide, L-Carnitine, Calcium D-Pantothenate, Cupric Sulfate, Thiamine Hydrochloride, Pyridoxine Hydrochloride, Riboflavin, Vitamin A Acetate, Folic Acid, Potassium Iodide, Sodium Selenite, Chromium Chloride, Sodium Molybdate, Phylloquinone, D-Biotin, Vitamin D₃, Cyanocobalamin.

Contains: Coconut Oil.

SOD Anamix® Early Years

A methionine- and cystine-free powdered infant formula for the dietary management of conditions requiring restriction of methionine and cystine (e.g. sulfite oxidase deficiency).

Main Features:

- Methionine- and cystine-free powdered infant formula with iron
- Includes DHA & ARA
- Contains a prebiotic blend of galacto-oligosaccharides (GOS) and fructo-oligosaccharides (FOS)
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrates, fat, vitamins, minerals and trace elements
- Provides 13.5 g of protein equivalent (PE) per 100 g of powder
- Unflavored powder
- Osmolality (at 0.7 kcal/mL): 380 mOsm/kg H₂O based on dilution of 5 g powder (1 unpacked level scoop) to 1 fl oz (30 mL) water
- Displacement: 0.75 mL/g

Indications:

- Sulfite oxidase deficiency (SOD)
- Other conditions requiring restriction of methionine and cystine

For details on administration and household measurements, please see the end of this section.

Additional Information:

Please note that this product is available by special order only. For detailed information on SOD Anamix Early Years, please contact our Nutrition Services Department (800-365-7354).

* S9435 = For individuals who submit their bills to insurance on their own.

XMet, XCys Maxamaid®

A methionine- and cystine-free powdered medical food for the dietary management of conditions requiring restriction of methionine and cystine (e.g. sulfite oxidase deficiency) in individuals over 1 year of age.

Main Features:

- Methionine and cystine free
- Contains a balanced mixture of all other essential and non-essential amino acids, carbohydrate, vitamins, minerals and trace elements
- Provides 25 g of protein equivalent per 100 g of powder
- Unflavored powder
- Osmolality (mOsm/kg H₂O):

Dilution	
1 to 5	690
1 to 7	490

Indications:

- Sulfite oxidase deficiency (SOD)
- Other conditions requiring restriction of methionine and cystine

Additional Information:

Please note that this product is available by special order only. For detailed information on XMet, XCys Maxamaid, please contact our Nutrition Services Department (800-365-7354).

Household measures are based on standard US, dry household measures.* All measures are level and un-packed. These values are approximations only and have been provided for convenience; results can vary significantly based on the individual, device, and method. Nutricia North America recommends using a gram scale for greatest accuracy. The scoops Nutricia provides are validated for use with Nutricia formulas, so are preferable to household measures.

*US measures: 1 cup = 240 mL; ½ cup = 120 mL; ¼ cup = 60 mL; 1 Tbsp = 15 mL; 1 tsp = 5 mL; ½ tsp = 2.5 mL

PKU Periflex® & Anamix® Early Years

Powdered infant formulas with iron containing DHA and ARA, and a unique blend of prebiotic oligosaccharides.

Administration:

- Must be consumed in conjunction with a whole protein source (eg. breast milk or standard infant formula) in quantities prescribed by a dietitian or physician to meet the general nutrition requirements to ensure normal growth and development.
- Formula dosage and dilution will vary depending on the age, body weight, medical condition and protein tolerance of the infant.

Mixing Instructions:

- To make a standard dilution (21 kcal/fl oz), add 1 unpacked level scoop (5 g) of powder to each fluid ounce of water. Only use the scoop provided. For accuracy formula should be weighed on a gram scale.
- PKU Periflex/Anamix Early Years may be mixed with warm or cool water that has been boiled. Do not boil formula or use a microwave to prepare or warm formula.

To make formula:

- 1) Wash hands thoroughly and clean the preparation area.
- 2) Pour the required amount of cooled, boiled water into the sterilized* feeding bottle.
- 3) Add the prescribed number of leveled scoops of formula to the water in the sterilized feeding bottle.
- 4) Place cap on the bottle and shake until the powder dissolves. Shake immediately before use.

Amount of Water	Amount of Powder	Approx. Protein Equiv.	Approx. Final Volume
5 fl oz (150 mL)	5 scoops (25 g)	3.4 g	5.6 fl oz (168 mL)
8 fl oz (240 mL)	8 scoops (40 g)	5.4 g	9 fl oz (270 mL)
12 fl oz (360 mL)	12 scoops (60 g)	8.1 g	13.5 fl oz (405 mL)

*Ask your baby's health care team if you need to use cooled, boiled water for mixing and if you need to boil (sterilize) bottles, nipples and rings before use.

Important Preparation Information: Freshly prepared formula is best. Formula prepared in advance must be cooled rapidly, stored in the refrigerator and used within 24 hours of preparation. Formula remaining in the bottle after one hour of feeding should be discarded. Powdered infant formula is not sterile.

Precautions:

- Do not boil formula or use a microwave to prepare or warm formula.
- Must be given under strict medical supervision to infants with a proven inborn error of metabolism. Not intended as the sole source of nutrition. For oral and tube feeding. Not for parenteral use.

Storage:

- Store unopened cans in a cool, dry place. Avoid extreme temperatures. Once opened, use contents within 2 weeks. Replace lid firmly after use.

PKU Periflex® Junior Plus & Anamix® Next

Medical foods for the dietary management of metabolic disorders in individuals over 1 year of age.

Administration:

- Must be consumed in conjunction with whole protein and other nutrients in quantities prescribed by a dietitian or physician to supply the fluid and general nutrition requirements.
- Intended for individuals over 1 year of age.
- Intake is dependent on the age, body weight and medical condition of the individual. Periflex Junior Plus or Anamix Next should be divided into equal portions and distributed throughout the day.

Mixing Instructions:

- Add the desired volume of water to a shaker or other container with a tight fitting lid. Then add the prescribed amount of powder and shake until fully blended together. Best served chilled.
- Standard solution is 3.5 fl oz (100 mL) water plus 36 g powder (approx. 4 scoops) made up to a final volume of approx. 4.3 fl oz (126 mL).

Freshly prepared formula is best. Refrigerate pre-mixed formula immediately and use within 24 hours of mixing. Shake immediately before use.

Dilution (kcal/mL)	Amount of Powder	Water Added	Approx. Final Volume
0.6	18 g (approx 2 scoops)	3.5 fl oz (100 mL)	3.8 fl oz (114 mL)
0.9	27 g (approx 3 scoops)	3.5 fl oz (100 mL)	4.0 fl oz (120 mL)
1.1	36 g (approx 4 scoops)	3.5 fl oz (100 mL)	4.2 fl oz (126 mL)

Precautions:

- Must only be given under strict medical supervision to individuals with proven inborn errors of metabolism. Not intended for infants. Not intended as sole source of nutrition. For oral and tube feeding. Not for parenteral use.

Storage:

- Store unopened can in a cool, dry place. Do not store at extreme temperatures. Once opened, use contents within 2 weeks. Replace lid firmly after use.

Periflex® Advance and Periflex® LQ

Age-specific medical foods for the dietary management of phenylketonuria (PKU) in children and adults, including pregnant women and women of child-bearing age.

Administration:

- Must be consumed in conjunction with whole protein, fluid and other nutrients in quantities prescribed by a physician or dietitian to meet phenylalanine and general nutrition requirements.
- Periflex Advance and Periflex LQ are intended for children and adults, including pregnant women and women of child-bearing age.
- Intake of Periflex is dependent on the age, bodyweight and medical condition of the individual. Periflex should be divided into equal portions and distributed throughout the day.

Mixing Instructions:

Periflex Advance

- Add the desired volume of water to a shaker or other container with a tight fitting lid. Then add the prescribed amount of powder and shake until fully blended together. Dilution guidelines are shown in the table that follows. Best served chilled.
- Periflex tastes great when combined with 1 fl oz (30 mL) of water for every 5 to 6 grams of powder.
- Once prepared, store formula in a refrigerator for no longer than 24 hours from the time of preparation. Shake or stir prepared formula immediately before use.

Dilution Guidelines for Periflex Advance

Volume of Water	Amount of Powder	Approx. Protein Equiv.
2 to 3 fl oz (60-90 mL)	16 g	6 g
4 to 5 fl oz (120-150 mL)	32 g	11 g
8 to 10 fl oz (240-300 mL)	64 g	22 g
16 to 20 fl oz (480-600 mL)	128 g	45 g

Dilutions are guidelines only. Periflex Advance may be given in a more concentrated form (e.g. a paste or concentrated drink) by using less water. If consumed in a concentrated form, water or other drinks should also be consumed at the same time.

Periflex LQ

Shake well before use. Best served chilled. Once opened, store any remaining formula in a refrigerator for no more than 24 hours. Shake formula immediately before use.

Precautions:

- Must only be given under strict medical supervision to individuals with proven phenylketonuria. Not intended for infants. Not intended as the sole source of nutrition. For oral and tube feeding. Not for parenteral use.

Storage:

- Store unopened cans of Periflex Advance in a cool, dry place. Do not store at extreme temperatures. Once opened, use contents within 1 month. Replace lid firmly after use.
- Store Periflex LQ in a cool dry place away from sunlight.

Maxamum®

Age-specific medical foods for the dietary management of metabolic disorders in older children and adults, including pregnant women and women of child-bearing age.

Administration:

- Must be consumed in conjunction with whole protein, fluid and other nutrients in quantities prescribed by a physician or dietitian to meet protein and general nutrition requirements.
- Recommended intake will vary depending on the age, body weight and medical condition of the individual. Intake is adjusted to maintain normal growth and development. For accuracy, weigh medical food on a gram scale. The daily intake should be divided into equal portions and distributed throughout the day.
- Intended for older children and adults, including pregnant women and women of child-bearing age.

Mixing Instructions:

- Best served with meals.
- Make a paste of the prescribed amount of powder with a small volume of chilled water. Gradually add sufficient water to make the desired volume.
- For best taste, consume immediately. Larger volumes of prepared formula should be refrigerated and used within 24 hours of preparation. Shake or stir prepared formula immediately before use.

Dilution	Amount of Powder	Volume of Water	Approx. PE
1 to 7	35 g	245 mL (approx. 8 fl oz)	14 g
1 to 5	35 g	175 mL (approx. 6 fl oz)	14 g

- It is recommended that Maxamum be prepared at a 1 to 7 dilution initially and advanced to a 1 to 5 dilution. These dilutions are guidelines only. May be given in a more concentrated form (e.g. drink or paste). If so, water or diluted drinks should be offered at the same time.

Precautions:

- Must only be given under strict medical supervision to patients with proven inborn errors of metabolism. Not intended for children under one year of age. Not suitable as the sole source of nutrition. For oral and tube feeding. Not for parenteral use.

Storage:

- Store unopened cans in a cool, dry place. Do not store at extreme temperatures. Once opened, use contents of can within 1 month. Replace lid firmly after use.

PhenylAde®

Medical foods for the dietary management of phenylketonuria (PKU) in children and adults, including pregnant women and women of child-bearing age.

Administration:

- Must be consumed in conjunction with whole protein, fluid and other nutrients in quantities prescribed by a physician or dietitian to meet phenylalanine and general nutrition requirements.

Mixing Instructions:

1. Add prescribed amount of PhenylAde powder to cold water, shake or stir until completely mixed together.
2. Dilution may be adjusted to taste. See recommended dilutions below for a guideline.
3. Once prepared, store formula in a refrigerator for no more than 24 hours from the time of preparation. Shake or stir prepared formula immediately before use.
4. Do not heat, bake or add to food or beverages above 130°F.

Recommended Dilution:

- **PhenylAde Essential Drink Mix**
Add contents of approx. 1 scoop (40 g) to approx. 7 fl oz (210 mL) of cold water.
- **PhenylAde GMP Drink Mix**
Add contents of approx. 1 scoop or pouch (33.3 g) to approx. 5-6 fl oz (150-180 mL) of cold water.
- **PhenylAde GMP READY**
Shake well before use. Best served chilled or at room temperature.

- **PhenylAde GMP Mix-In**
Add contents of 1 pouch or scoop (12.5 g) to approx. 6-8 fl oz (180-240 mL) of cold water or a flavored (protein-free) beverage.
- **PhenylAde GMP ULTRA**
Add contents of 1 pouch (33.4 g) to approx. 6 fl oz (180 mL) of cold water.
- **PhenylAde 60 Drink Mix**
Add contents of 1 scoop (16.7 g) to approx 3 fl oz (90 mL) of cold water.
- **PhenylAde Amino Acid Blends**
Add one serving to single portion of low protein food, beverage or other PKU formula. The appropriate serving size must be established and consumed to meet prescribed amino acid protein requirements. Not intended to be added to plain water.

Precautions:

- Must only be given under strict medical supervision to individuals with proven phenylketonuria. Not intended for infants. Not intended as the sole source of nutrition. For oral and tube feeding. Not for parenteral use.
- PhenylAde GMP products are not suitable for individuals with a dairy or milk allergy.

Storage:

- Store unopened cans or pouches in a cool, dry place. Do not store at extreme temperatures. Once cans are opened, use within one month. PhenylAde GMP READY must be used immediately or refrigerated promptly once opened and used within 24 hours.

Phlexy-10®

An interchangeable system of phenylalanine-free medical foods for the dietary management of phenylketonuria (PKU) in older children and adults, including pregnant women and women of child-bearing age.

Administration:

- Must be consumed in conjunction with whole protein, fluid and other nutrients in quantities prescribed by a physician or dietitian to meet phenylalanine and general nutrition requirements. Fat, carbohydrate and low protein sources may be used to supply needed calories and to fulfill essential fatty acid requirements.
- Intake of Phlexy-10 products will vary depending on the age, body weight and medical condition of the individual. Intake is adjusted to maintain normal growth and development. One packet of the drink mix or 10 tablets provide 10 g of amino acids, equivalent to 8.33 g of protein.
- Phlexy-10 products do not contain vitamins, minerals, or trace elements. It is essential that these nutrients are supplied separately.

Mixing Instructions:

- **Phlexy-10 Drink Mix:** Mix the contents of one packet with a small amount of water, stirring into a thick paste. Continue stirring while adding water to make up a final volume of approximately 100 mL (~3.5 fl oz). Once prepared, store formula in a refrigerator for no longer than 24 hours from the time of preparation. Shake or stir prepared formula immediately before use.
- **Phlexy-10 Tablets:** Should be taken with water or a phenylalanine-free beverage.

Precautions:

- Must only be given under strict medical supervision to patients with proven phenylketonuria. Not intended for use as the sole source of nutrition. Not intended for infants under 1 year of age. For oral and tube feeding. Not for parenteral use.

Storage:

- Phlexy-10 Drink Mix and Tablets should be stored in a cool, dry place. Once Phlexy-10 Tablets are opened, use contents within 1 month. Replace lid securely after use.

PhenylAde® PheBLOC™ LNAA

Medical food containing essential amino acids (large neutral amino acids and lysine) except phenylalanine. For the dietary management of phenylketonuria (PKU) in individuals over 12 years of age.

Administration:

- Must be consumed in conjunction with whole protein, fluid and other nutrients in quantities prescribed by a physician or dietitian to meet phenylalanine and general nutrition requirements.
- Intake of the product is dependent on the age, bodyweight and medical condition of the individual.

Mixing Instructions:

PhenylAde PheBLOC LNAA powder

- Add contents of 1 pouch (3 g) to ~½ cup of any semi-solid food (i.e., applesauce, mashed potatoes, pudding, sorbet, etc).

Visit NutriciaLearningCenter.com for guidelines on the usage of PhenylAde PheBLOC LNAA in the dietary management of PKU

Precautions:

- Must only be given under strict medical supervision to individuals with proven phenylketonuria. Suitable for individuals over 12 years of age. Not suitable as the sole source of nutrition. For oral use. Not for parenteral use.
- **Not for use when planning or during pregnancy.**
- **Seek medical advice before using with serotonergic medications or any kind of psychotropic medications.**

Storage:

- Store unopened pouches or containers in a cool, dry place.
- Once tablets are opened, use within one month. Replace lid securely when not in use.

Lophlex® Powder and Lophlex® LQ

Low volume medical foods for the dietary management of metabolic disorders in children and adults, including pregnant women and women of child-bearing age.

Administration:

- Must be consumed in conjunction with whole protein, fluid and other nutrients in quantities prescribed by a physician or dietitian to meet amino acid and general nutrition requirements. Fat, carbohydrate and low protein sources may be used to supply needed calories and to fulfill essential fatty acid requirements.
- Intake of Lophlex and Lophlex LQ will vary depending on the age, body weight and medical condition of the individual. Intake is adjusted to maintain normal growth and development. Lophlex and Lophlex LQ should be divided into equal portions and distributed throughout the day.

Mixing Instructions:

Lophlex LQ

- Shake vigorously before use. Tastes best when served chilled.

PKU Lophlex Powder

- Mix the contents of one pouch with a small amount of water to make a paste. Continue stirring while adding water to a final volume of approximately 70 mL (2.5 fl oz) for a 1 to 5 dilution. Lophlex may be taken in a

more concentrated form, either as a drink or paste. If so, water or diluted drinks should be offered at the same time. Lophlex is best prepared with chilled water and consumed immediately after preparation. Larger volumes of prepared formula should be refrigerated and used within 24 hours of preparation. Shake or stir prepared formula immediately before use.

TYR Lophlex GMP MIX-IN

- Add contents of 1 pouch (12.5 g) to approx. 6-8 fl oz (180-240 mL) of a chilled, flavored drink.
- Not suitable for individuals with a dairy or milk allergy.

Precautions:

- Must only be used under strict medical supervision in individuals with proven inborn errors of metabolism. Not intended as a sole source of nutrition. For oral and tube feeding. Not for parenteral use.

Storage:

- Store in a cool, dry place, away from sunlight.

Complex MSD[®]: Essential and Amino Acid Blend

Medical foods for the dietary management of maple syrup urine disease (MSUD) in children and adults, including pregnant women and women of child-bearing age.

Administration:

- Must be consumed in conjunction with whole protein, fluid and other nutrients in quantities prescribed by a physician or dietitian to meet branched-chain amino acid and general nutrition requirements.

Mixing Instructions:

- Add prescribed amount of Complex MSD powder to cold water, shake or stir until completely mixed together.
- Dilution may be adjusted to taste. See guidelines below.
- Once prepared, store formula in a refrigerator for no more than 24 hours from the time of preparation. Shake or stir prepared formula immediately before use.
- Do not heat, bake or add to food or beverages above 130°F.

Recommended Dilution:

Complex MSD Essential

- Add 40 g powder (approx. 1 scoop) to approx. 7 fl oz (210 mL) of cold water. Dilution may be adjusted to taste.

Complex MSD Amino Acid Blend

- Add contents of 1 scoop (12.4 g) to single portion of low protein food, beverage or other MSUD formula. Appropriate serving size must be established by a medical professional and consumed to meet prescribed protein equivalent requirements. Not intended to be added to plain water.

Precautions:

- Must only be given under strict medical supervision to individuals with proven maple syrup urine disease. Not intended for infants. Not intended as the sole source of nutrition. For oral and tube feeding. Not for parenteral use.

Storage:

- Store unopened cans in a cool, dry place. Do not store at extreme temperatures. Once opened, use contents within 1 month. Replace lid firmly after use.

GlutarAde[®]: Essential and Amino Acid Blend

Medical foods for the dietary management of glutaric aciduria type 1 (GA-1) in children and adults, including pregnant women and women of child-bearing age.

Administration:

- Must be consumed in conjunction with whole protein, fluid and other nutrients in quantities prescribed by a physician or dietitian to meet the lysine and general nutrition requirements.

Mixing Instructions:

- Add prescribed amount of GlutarAde powder to cold water, shake or stir until completely mixed together.
- Dilution may be adjusted to taste. See guidelines below.
- Once prepared, store formula in a refrigerator for no more than 24 hours from the time of preparation. Shake or stir prepared formula immediately before use.
- Do not heat, bake or add to food or beverages above 130°F.

Recommended Dilution

GlutarAde Essential

- Add 40 g powder (approx. 1 scoop) to approx. 7 fl oz (210 mL) of cold water. Dilution may be adjusted to taste.

GlutarAde Amino Acid Blend

- Add contents of 1 scoop (12.3 g) to single portion of low protein food, beverage or other GA-1 formula. Appropriate serving size must be established by a medical professional and consumed to meet prescribed protein equivalent requirements. Not intended to be added to plain water.

Precautions:

- Must only be given under strict medical supervision to individuals with proven glutaric aciduria type 1. Not intended for infants. Not intended as the sole source of nutrition. For oral and tube feeding. Not for parenteral use.

Storage:

- Store unopened cans in a cool, dry place. Do not store at extreme temperatures. Once opened, use contents within 1 month. Replace lid firmly after use.

UCD Anamix[®] Infant

A powdered infant formula for the dietary management of urea cycle disorders in infants.

UCD Anamix Infant is available under FDA enforcement discretion and is imported with a European label in English and Spanish.

Administration:

- Must be consumed in conjunction with a whole protein source (e.g. breast milk or standard infant formula) in quantities prescribed by a dietitian or physician to meet protein and general nutrition requirements to ensure normal growth and development.
- Intake to be determined by a qualified healthcare professional and is dependent on the age, body weight, and medical condition of the infant.

Mixing Instructions:

- To make the recommended dilution of 22 kcal/oz, add 1 unpacked, level scoop (5 g) of powder to each fluid ounce of water (30 mL). Only use the scoop provided. For greater accuracy, weigh formula on a gram scale.
- UCD Anamix Infant may be mixed with warm or cool water that has been boiled. Do not boil formula or use a microwave to prepare or warm formula.

To make formula:

1. Wash hands thoroughly and clean the preparation area.
2. Pour the required amount of cooled, boiled water into a sterilized* feeding bottle.
3. Fill the scoop provided with powder and level off with a clean, dry knife. Do not press the powder into the scoop. Only use the scoop provided. Alternatively, measure the powder with a gram scale.
4. Add the prescribed number of scoops of powder (or weighed grams of powder) to the water. Replace the cap on the bottle and shake until the powder dissolves. Before feeding, ensure

that the formula is at the correct temperature by placing a few drops on the wrist. Shake immediately before use.

*Ask your baby's healthcare team if you need to use cooled, boiled water for mixing and if you need to boil (sterilize) bottles, nipples, and rings before use.

Dilution Guidelines for UCD Anamix Junior

Amount of Water	Amount of UCD Anamix Infant Powder to Add	Approximate Protein Equivalent	Approximate Final Volume
3 fl oz (90 mL)	15 g (approx. 3 scoops)	11 g	3.4 fl oz (100 mL)

Osmolality at this concentration is 310 mOsmol/kg H₂O

Important Preparation Information: Freshly-prepared formula is best. Formula prepared in advance must be cooled rapidly, stored in the refrigerator and used within 24 hours of preparation. Formula remaining in the bottle after one hour of feeding should be discarded. Powdered infant formula is not sterile.

Precautions:

- Must only be given under strict medical supervision to infants and young children with urea cycle disorders, HHH syndrome, or gyrate atrophy. Not intended as a sole source of nutrition. For oral and tube feeding. Not for parenteral use.

Storage:

- Store unopened cans in a cool, dry place. Avoid extreme temperatures. Once opened, use contents within 2 weeks. Replace lid firmly after use.

UCD Anamix[®] Junior

Medical food for the dietary management of urea cycle disorders in individuals over 1 year of age.

Administration:

- Must be consumed in conjunction with whole protein, fluid and other nutrients in quantities prescribed by a physician or dietitian to meet protein and general nutrition requirements.
- Intake to be determined by a medical professional and is dependent on age, body weight and medical condition of the individual. For accuracy, weigh on a gram scale. Daily intake should be divided into equal portions and distributed throughout the day.
- Suitable for patients over 1 year of age, including pregnant women and women of child-bearing age.

Mixing Instructions:

- Best served chilled with meals.
- Pour the required volume of cold water into a glass or cup.
- Add the prescribed amount of UCD Anamix Junior powder to the water and stir. For greater accuracy use a gram scale.
- It is recommended that UCD Anamix Junior be prepared at a 1 to 3.5 dilution. This is a guideline only. An alternative dilution may be recommended by a clinician or dietitian (e.g. drink or paste). If given in a more concentrated form, water or diluted drinks should be offered at the same time.

- Once prepared, store formula in a refrigerator for no longer than 24 hours from the time of preparation. Shake or stir prepared formula immediately before use.

Dilution Guidelines for UCD Anamix Junior

Dilution of approx. 27 kcal/fl oz (0.9 kcal/mL)

Amount of Powder	Water Added	Final Volume	Approx. PE
30 g (approx. 6 scoops)	3.5 fl oz (105 mL)	4.2 fl oz (126 mL)	3.6 g
50 g (approx. 10 scoops)	5.8 fl oz (175 mL)	7 fl oz (210 mL)	6 g

Precautions:

- Must only be given under strict medical supervision to patients with proven urea cycle disorders. Not intended for children under one year of age. Not suitable as a sole source of nutrition. For oral and tube feeding. Not for parenteral use.

Storage:

- Store unopened cans in a cool, dry place. Do not store at extreme temperatures. Once opened, use contents within 1 month. Replace lid firmly after use.

MEDICAL KETOGENIC DIET

Coco, Age 8
Diagnosed with
intractable epilepsy

Find more information and resources on these and all of our products at www.NutriciaLearningCenter.com

KetoCal® 3:1 Powder

A nutritionally complete, ketogenic formula in a 3:1 ratio (fat:carbohydrate + protein) for the dietary management of refractory epilepsy and other epilepsy-related conditions where the medical ketogenic diet is indicated; designed for individuals over 1 year of age. A medical food.

Main Features:

- Nutritionally complete
- 3:1 ratio
- DHA and ARA
- Unflavored
- Appropriate for enteral or oral feedings
- No artificial sweeteners
- 0 g of *trans* fat
- Nutrient dense for children with low energy requirements
- Standard dilution = 1 kcal/mL
- Osmolality (at 1 kcal/mL): 160 mOsm/kg H₂O
- Energy distribution:

Protein	8.7%
Carbohydrate	4.1%
Fat (LCT 100%)	87.2%
- Displacement 1 mL/g

Indications:

- Refractory/intractable epilepsy
- Other epilepsy-related conditions where the ketogenic diet is indicated, including:
 - Glucose transporter type-1 deficiency syndrome (Glut1DS)
 - Pyruvate dehydrogenase deficiency (PDH)
 - Dravet syndrome
 - Super Refractory Status Epilepticus (SRSE)

For details on administration, please see the end of this section.

KetoCal® 4:1 Powder

A nutritionally complete, ketogenic formula in a 4:1 ratio (fat:carbohydrate + protein) for the dietary management of refractory epilepsy and other epilepsy-related conditions where the medical ketogenic diet is indicated; designed for individuals over 1 year of age. A medical food.

Main Features:

- Nutritionally complete
- 4:1 ratio
- DHA and ARA
- Vanilla flavor
- Appropriate for enteral or oral feedings
- Contains a multi-fiber blend
- Contains sucralose
- 0 g of *trans* fat
- Nutrient dense for children with low energy requirements
- Standard dilution = 1 kcal/mL
- Osmolality (at 1 kcal/mL): 170 mOsm/kg H₂O
- Energy distribution:

Protein	8.2%
Carbohydrate	3.5%
Fiber	1.5%
Fat (LCT 100%)	88.3%
- Displacement 1 mL/g

Indications:

- Refractory/intractable epilepsy
- Other epilepsy-related conditions where the ketogenic diet is indicated, including:
 - Glucose transporter type-1 deficiency syndrome (Glut1DS)
 - Pyruvate dehydrogenase deficiency (PDH)
 - Dravet syndrome
 - Super Refractory Status Epilepticus (SRSE)

For details on administration, please see the end of this section.

* Standard Dilution = 1 kcal/mL

Fiber is subtracted from total carbohydrate when calculating the ketogenic ratio

Ingredients:

Refined Vegetable Oils (Palm, Soy, High Oleic Sunflower), Casein (Milk), Soy Lecithin, Whey (Milk), Microcrystalline Cellulose, Chicory Root Inulin, Calcium Carbonate, Corn Syrup Solids, Fructooligosaccharide (FOS), Silicon Dioxide, Gum Arabic, Tripotassium Citrate, Potassium Chloride, Sodium Chloride, Calcium Phosphate Tribasic, High Amylose Corn Starch, Artificial Flavor (Vanilla), L-Arginine, L-Cystine, Choline Bitartrate, *M. alpina* Oil*, *C. cohnii* Oil**, Soy Fiber, L-Tryptophan, Magnesium Oxide, Sodium Caseinate (Milk), Sodium Ascorbate, L-Phenylalanine, Maltodextrin, L-Ascorbic Acid, L-Valine, L-Tyrosine, L-Carnitine, Taurine, Ferrous Sulfate, Mono- and Diglycerides, DL-alpha Tocopheryl Acetate, Sucralose[§], M-Inositol, L-Histidine, Zinc Sulfate, Niacinamide, Calcium D-Pantothenate, Manganese Sulfate, Cupric Sulfate, Thiamine Chloride Hydrochloride, Pyridoxine Hydrochloride, Riboflavin, Vitamin A Acetate, Ascorbyl Palmitate, Mixed Tocopherols, Folic Acid, Potassium Iodide, Sodium Molybdate, Chromium Chloride, Sodium Selenite, Phylloquinone, D-Biotin, Cholecalciferol, Cyanocobalamin.

Contains: Milk, Soy

* A source of Arachidonic Acid (ARA)

** A source of Docosahexaenoic Acid (DHA)

§ Contains sucralose 14.2 mg/100 mL

Access our Clinician Resources, including DRI Calculator here: <http://bit.ly/NutriciaHCPTools>

KetoCal® 4:1 LQ (Unflavored and Vanilla)

A nutritionally complete, ready-to-feed ketogenic formula in a 4:1 ratio (fat:carbohydrate + protein) for the dietary management of refractory epilepsy and other epilepsy-related conditions where the medical ketogenic diet is indicated; designed for individuals over 1 year of age. A medical food.

Main Features:

- Nutritionally complete
- 4:1 ratio
- DHA and ARA
- Great vanilla flavor or unflavored
- Convenient ready-to-feed liquid
- Appropriate for enteral or oral feedings
- Contains a multi-fiber blend
- Contains sucralose
- 0 g of *trans* fat
- Nutrient dense for children with low energy requirements
- Osmolality (at 1.5 kcal/mL):

Vanilla	260 mOsm/kg H ₂ O
Unflavored	280 mOsm/kg H ₂ O
- Energy distribution:

Protein	8.2%
Carbohydrate	3.1%
Fiber	1.5%
Fat (LCT 100%)	88.7%
- Free water 77.8%
- Density 1.01g/mL

Indications:

- Refractory/intractable epilepsy
- Other epilepsy-related conditions where the ketogenic diet is indicated, including:
 - Glucose transporter type-1 deficiency syndrome (Glut1DS)
 - Pyruvate dehydrogenase deficiency (PDH)
 - Dravet syndrome
 - Super Refractory Status Epilepticus (SRSE)

For details on administration, please see the end of this section.

KetoCal® 4:1 LQ (Chocolate)

A nutritionally complete, ready-to-feed ketogenic formula in a 4:1 ratio (fat:carbohydrate + protein) for the dietary management of refractory epilepsy and other epilepsy-related conditions where the medical ketogenic diet is indicated; designed for individuals 3 years of age and older. A medical food.

Main Features:

- Nutritionally complete
- 4:1 ratio
- DHA and ARA
- Tasty chocolate formula
- Convenient ready-to-feed liquid
- Appropriate for enteral or oral feedings
- Contains a multi-fiber blend
- Osmolality (at 1.5 kcal/mL): 260 mOsm/kg H₂O
- Energy distribution:
 - Protein 8.1%
 - Carbohydrate 3.2%
 - Fiber 1.5%
 - Fat 88.7%
- Free water: 79%
- Density: 1.01 g/mL

Indications:

- Refractory/intractable epilepsy
- Other epilepsy-related conditions where the medical ketogenic diet is indicated, including:
 - Glucose transporter type-1 deficiency syndrome (Glut1DS)
 - Pyruvate dehydrogenase deficiency (PDHD)
 - Dravet syndrome
 - Super Refractory Status Epilepticus (SRSE)

For details on administration, please see the end of this section.

KetoCal® 2.5:1 LQ (Vanilla)

A nutritionally complete, ready-to-feed ketogenic formula in a 2.5:1 ratio (fat:carbohydrate + protein) for the dietary management of refractory epilepsy and other epilepsy-related conditions where the medical ketogenic diet is indicated. Designed for individuals over 8 years of age and older. A medical food.

Main Features:

- Nutritionally complete
- 2.5:1 ratio
- DHA
- MCT
- Great vanilla flavor
- Convenient ready-to-feed liquid
- Appropriate for enteral or oral feedings
- Contains a multi-fiber blend
- Contains sucralose
- 0 g of *trans* fat
- Nutrient dense for children with low energy requirements
- Osmolality (at 1.5 kcal/mL): 347 mOsm/kg H₂O
- Energy distribution:

Protein	12%
Carbohydrate	2.9%
Fiber	15%
Fat (MCT 25% LCT 75%)	84%
- Free water 76.7%
- Density 1.02 g/mL

Indications:

- Refractory/intractable epilepsy
- Other epilepsy-related conditions where the ketogenic diet is indicated, including:
 - Glucose transporter type-1 deficiency syndrome (Glut1DS)
 - Pyruvate dehydrogenase deficiency (PDH)
 - Dravet syndrome
 - Super Refractory Status Epilepticus (SRSE)

For details on administration, please see the end of this section.

Fiber is subtracted from total carbohydrate when calculating the ketogenic ratio

Ingredients:

Water, Refined Vegetable Oil (High Oleic Sunflower Oil, Medium Chain Triglycerides (Palm Kernel And/Or Coconut Oil), Soy Oil), Sodium Caseinate (Milk), Whey Protein Concentrate (Milk), Sugar, Soy Fiber, Tripotassium Citrate, Corn Starch, Calcium Chloride, Inulin, CITREM, Artificial Flavors, Gum Arabic, Magnesium Acetate, Dipotassium Phosphate, *C. cohnii* Oil*, Microcrystalline Cellulose, Fructo-Oligosaccharides (FOS), Calcium Phosphate Monobasic, Potassium Chloride, Mono- And Diglycerides, Maltodextrin, Trisodium Citrate, Choline Chloride, Sodium Hydroxide, L-Cystine, L-Ascorbic Acid, Calcium Phosphate Tribasic, Sucralose**, Propylene Glycol Alginate, L-Carnitine, Ferrous Lactate, Taurine, M-Inositol, L-Tryptophan, DL-Alpha Tocopheryl Acetate, Zinc Sulfate, Niacinamide, Calcium D-Pantothenate, Manganese Sulfate, Copper Sulfate, Thiamin Mononitrate, Pyridoxine Hydrochloride, Vitamin A Palmitate, Riboflavin, Ascorbyl Palmitate, Mixed Tocopherols, Folic Acid, Potassium Iodide, Sodium Molybdate, Chromium Chloride, Phylloquinone, Sodium Selenite, D-Biotin, Cholecalciferol, Cyanocobalamin.

Contains: Milk, Soy

* A Source of Docosahexaenoic Acid (DHA)

**Contains Sucralose 43 mg/237 mL

KetoCal® Family

Directions for Preparation:

For oral and tube feeding:

KetoCal 3:1 and 4:1 Powders

1. Measure the required amount of warm water into a container that seals with a screw top lid. To completely dissolve the powder, the water must be at a temperature of 113-122°F (45-50°C).
2. Add the prescribed amount of KetoCal to the water.
3. Cover and shake until the powder has dissolved.
4. Once prepared, the formula should be stored in a refrigerator and kept no longer than 24 hours.

Directions for Use:

- For oral feeding, best served chilled and consumed immediately.
- **Tube feeding hang time:** Nutricia recommends formula can be safely kept at room temperature for up to 4 hours, at which time unused formula should be discarded.
- It is recommended that the tube is flushed with lukewarm water (approximately 98°F or 37°C) between each feed.
- Do not boil or microwave formula.
- Do not freeze. Recommended storage between 39°F-77°F (4°C-25°C).
- Once powdered formula is prepared or liquid formula is open, use immediately or refrigerate promptly at 39°F/4°C or less and use within 24 hours.

Mixing Guide:

KetoCal 4:1 Powder

Dilution to be determined by medical prescription:

Dilution	Powder	Water	Final Volume	Osmolality
20 kcal/fl oz	9.5 g	91 mL	100 mL	110 mOsm/kg
24 kcal/fl oz	11.4 g	88 mL	100 mL	130 mOsm/kg
30 kcal/fl oz	14.2 g	86 mL	100 mL	170 mOsm/kg
45 kcal/fl oz	21.3 g	79 mL	100 mL	260 mOsm/kg

A gram scale is necessary for proper preparation of formula.

KetoCal 3:1 Powder

Dilution to be determined by medical prescription:

Dilution	Powder	Water	Final Volume	Osmolality
20 kcal/fl oz	9.3 g	90 mL	100 mL	100 mOsm/kg
24 kcal/fl oz	11.3 g	89 mL	100 mL	120 mOsm/kg
30 kcal/fl oz	14.1 g	86 mL	100 mL	150 mOsm/kg
45 kcal/fl oz	21.1 g	79 mL	100 mL	160 mOsm/kg

A gram scale is necessary for proper preparation of formula.

Storage:

Store unopened product in a cool, dry place and away from sunlight.

KetoCal 3:1 and 4:1 Powders: Once can has been opened, replace container lid and store in a cool, dry place (not in a refrigerator). Use within one month.

- Intake to be determined by a medical professional and is dependent on the age, body weight, and medical condition of the patient.

PRO-STAT®

Find more information and resources on these and all of our products at www.NutriciaLearningCenter.com

Pro-Stat®

A ready-to-drink concentrated liquid protein medical food providing 15 g of enzyme-hydrolyzed collagen protein and 100 calories per 1 fl oz.

Main Features:

- Clinically supported in 3 published trials to: manage wounds (1 study)¹, improve anabolism (1 study)², preserve lean body mass (1 study)³
- Nutrient dense, providing 15 g of protein and 100 calories per 1 fl oz
- 0 grams of total sugar and 0 mg of phosphorus per serving
- Pro-Stat Peach (with fiber) also provides 3 g prebiotic fiber
- Available in 5 great-tasting flavors
- Lactose-, gluten-, and soy-free
- Kosher
- Available in bottles (6/case) or unit doses (96/case)
- For oral and enteral use

Indications:

- Increased protein needs in low volume related to:
 - Pressure injuries
 - Wounds (diabetic, venous, surgical, burns)
 - Unintentional muscle loss
 - Protein-energy malnutrition
 - Low serum proteins
 - Sarcopenia
 - Dialysis
 - Fluid restriction

PEACH (with fiber)

Ingredients:

Pro-Stat Wild Cherry Punch, Citrus Splash, Grape and Vanilla: Hydrolyzed Collagen Protein, Water, Glycerin, Malic Acid. Contains 2% or less: Potassium Sorbate (to help protect flavor), Sodium Benzoate (to help protect flavor), Sucralose, L-Tryptophan.

Wild Cherry Punch flavored version of this product contains 2% or less of each of the following: Natural flavors.

Citrus Splash, Grape and Vanilla flavored versions of this product contains 2% or less of each of the following: Natural and Artificial flavors.

Pro-Stat Peach (with fiber): Hydrolyzed Collagen Protein, Water, Glycerin, Polydextrose, Fructo-oligosaccharides (FOS), Malic Acid. Contains 2% or less: Natural Flavor, L-Tryptophan, Sucralose, Potassium Sorbate (to help protect flavor), Sodium Benzoate (to help protect flavor).

Administration:

- Use under medical supervision
- Healthcare professionals should determine intake based on condition, estimated need, and dietary intake.
- Administer orally or through feeding tube.

Suggested Intake:

- 1-3 servings per day.
One serving = 1 fl oz.

Oral Feeding:

- Shake well before opening.
- Can be taken straight or mixed with any hot or cold food or beverage.

Tube Feeding:

- Flush feeding tube with 30-60 mL of water.
- Pour 30 mL of Pro-Stat in a 4-6 fl oz container.
- Add 30-60 mL water and mix well.
- Administer Pro-Stat via syringe.
- Flush with 30-60 mL of water.

Precautions:

- Do not add Pro-Stat to an open or closed system of the tube feeding formula or into a container of enteral feeding.
- Do not add medications to Pro-Stat, even after dilution.
- Not suitable for use as a sole source of nutrition.
- Not for parenteral use.

Storage:

- Store at room temperature.
- Refrigeration causes gelling.
- Discard 3 months after opening.
- Record date opened on bottom of container.
- Do not use if seal is broken.

Pro-Stat® AWC (Advanced Wound Care)

A ready-to-drink concentrated liquid protein medical food providing 17 g of enzyme-hydrolyzed collagen protein and 100 calories per 1 fl oz, with added arginine, citrulline, cystine, vitamin C and zinc.

Main Features:

- Clinically supported in 1 published trial to promote wound healing in stages 2 to 4 pressure injuries¹
- Nutrient dense, providing 17 g of protein and 100 calories per 1 fl oz
- Contains added arginine, citrulline, cystine, vitamin C and zinc
- Hydrolyzed for rapid absorption & efficient utilization²
- Provides conditionally-indispensable amino acids needed for recovery³⁻⁸
- Lactose-, gluten-, and soy-free
- Kosher
- Available in 3 great-tasting flavors
- Available in bottles (4/case) or unit doses (96/case)
- For oral and enteral use

Indications:

- Increased protein needs in low volume related to:
 - Stages 2 to 4 pressure injuries
 - Multiple pressure injuries
 - Hard-to-heal wounds (diabetic, venous, surgical, burns)
 - Unintentional muscle loss
 - Protein-energy malnutrition
 - Low serum proteins
 - Sarcopenia

- Do not use if seal is broken.

Pro-Stat® MAX

A hydrolyzed whey- and collagen-based concentrated liquid protein medical food providing 11 g of 1.0 PDCAAS* protein and 80 calories in 1 fl oz.

Main Features:

- Nutrient dense, providing 11 g of 1.0 PDCAAS protein and 80 calories in 1 fl oz to help meet high protein demands¹
- Whey- and collagen-based hydrolyzed complete protein
- Provides all 9 indispensable amino acids needed for efficient protein synthesis²⁻⁶
- Gluten-free and soy-free
- Available in great tasting grape flavor
- Available in bottles (4/case) and unit doses (96/case)
- For oral and enteral use

Indications:

- Increased protein needs in low volume related to:
 - Pressure injuries
 - Wounds (diabetic, venous, surgical, burns)
 - Critical illness**
 - Unintentional muscle loss
 - Protein-energy malnutrition
 - Low serum proteins
 - Sarcopenia
 - Pre- and post-surgery

Ingredients:

Water, Glycerin, Hydrolyzed Whey Protein, Hydrolyzed Collagen Protein, Malic Acid. Contains 2% or less: Natural & Artificial Flavor, Phosphoric Acid, L-Phenylalanine, L-Histidine, L-Tryptophan, L-Methionine, Sucralose, Potassium Sorbate (to help protect flavor), Sodium Benzoate (to help protect flavor).

Contains: Milk (Whey).

Administration:

- Use under medical supervision.
- Healthcare professionals should determine intake based on condition, estimated need, and dietary intake.
- Administer orally or through feeding tube.

Suggested Intake:

- 1-3 servings per day.
One serving = 1 fl oz.

Oral Feeding:

- Shake well before opening.
- Can be taken straight or mixed with any hot or cold food or beverage.

Tube Feeding:

1. Flush feeding tube with 30-60 mL of water.
2. Pour 30 mL of Pro-Stat MAX in a 4-6 fl oz container.
3. Add 30-60 mL water and mix well.
4. Administer Pro-Stat MAX via syringe.
5. Flush with 30-60 mL of water.

Precautions:

- Do not add Pro-Stat to an open or closed system of the tube feeding formula or into a container of enteral feeding.
- Do not add medications to Pro-Stat, even after dilution.
- Not suitable for use as a sole source of nutrition.
- Not for parenteral use.

Storage:

- Store at room temperature.
- Refrigeration causes gelling.
- Discard 3 months after opening.
- Record date opened on bottom of container.
- Do not use if seal is broken.

* PDCAAS = Protein Digestibility Corrected Amino Acid Score.

The Food and Agriculture Organization (FAO), World Health Organization (WHO), Institute of Medicine (IOM) and Food and Drug Administration (FDA) use this method for evaluating protein quality. PDCAAS rates the utilization and digestibility of protein.

** ICU stay for >2-3 days.

UTI-Stat®

A ready-to-drink medical food providing cranberry concentrate with added ingredients (vitamin C, D-Mannose, fructo-oligosaccharides (FOS), and bromelain) in a 1 fl oz serving for urinary tract health.

Main Features:

- Clinically supported in 2 published trials to manage urinary tract infections¹⁻²
- Low in sugar (1 g sugar per serving)
- Lactose-, gluten-, and soy-free
- Kosher
- Available in cranberry flavor
- Available in bottles (4/case) or unit doses (96/case)
- For oral and enteral use

Indications:

- Management of urinary tract infections
- Urinary tract health

Proprietary Blend (Cranberry Concentrate, Ascorbic Acid, D-Mannose, FOS, Bromelain)

**Glycerin provides a source of calories*

Ingredients:

Water, Glycerin, Proprietary Blend (Cranberry Concentrate, Ascorbic Acid, D-Mannose, Fructo-oligosaccharides (FOS), Bromelain). Contains 2 % or less: Sucralose, Acesulfame Potassium, Potassium Sorbate (to preserve flavor), Sodium Benzoate (to preserve flavor), Phosphoric Acid.

Administration:

- Use under medical supervision.
- Administer orally or through feeding tube.

Suggested Intake:

- 1-2 servings per day as needed. One serving = 1 fl oz.

Oral Feeding:

- Can be taken straight or mixed with any hot or cold food or beverage.

Tube Feeding:

1. Flush feeding tube with 30-60 mL water.
2. Measure and administer dose prescribed.
3. Administer UTI-Stat straight into the enteral tube.
4. Flush the tube with additional 30 mL water.

Precautions:

- Not a substitute for antibiotics.
- This product is not intended for use as an analgesic.
- Not suitable for use as a sole source of nutrition.
- Not for parenteral use.

Storage:

- Store at room temperature.
- Refrigeration not necessary.
- Discard 3 months after opening.
- Record date opened on bottom of container.
- Do not use if seal is broken.

Real Food Blends® Beef, Potatoes & Spinach

The only 100% real food meals made from simple ingredients and ready-to-feed for people with feeding tubes.

Main Features:

- Each 9.4 oz pouch yields an approx. 8 fl oz serving delivering 11 g protein, 18 g fat and 30 g of carbohydrate in 330 calories
- 100% real food
- 77% water content
- No dairy, nut, or soy ingredients
- No added vitamins and minerals
- No added sugar* or salt**
- No color added, no flavor added

*Not a low calorie food **Not a sodium free food

Note: Real Food Blends can be used as a primary source of nutrition or in conjunction with tube feeding formula.

Real food blends does not contain added salt** or dairy products.

Nutritional Applications:

- Ideal for patients wanting easy access to a true blended diet.
- A growing body of evidence indicates that blenderized tube feeding may improve common symptoms of formula intolerance:
 - Gagging/Retching¹
 - Nausea & Vomiting²
 - Bowel Function³
 - Reflux⁴

[†]For healthcare professionals only.

Each Real Food Blends product is made from 5-8 whole food ingredients. Due to normal nutritional variation in agricultural ingredients, actual nutrient content of our products may differ. The nutrition information presented here for nutrients not on the product label is based on USDA Nutrient Database Standard Reference for the ingredients in the product and is not based on product testing. For individuals dependent on a feeding tube, regular nutritional monitoring is recommended to ensure the diet is adequate and provides all essential nutrients.

Ingredients

Water, Beef, Potatoes, Pineapple Juice Concentrate, Spinach, Grapeseed Oil.

Administration

Recommended for use as directed by a health care professional. Can be used as bolus, pump or gravity feeding with a 14 Fr G-tube or larger. If consistency with gravity or pump feeding is a concern, dilute with fluid. Recommended hang time of 2 hours.

Use a variety of Real Food Blends meals to customize nutrition plans to address the dietary needs of each patient.

Storage Recommendations

Once opened, Real Food Blends should be used within 2 hours, or stored in a refrigerator for up to 24 hours. Discard unused contents thereafter.

[†]For healthcare professionals only.

Each Real Food Blends product is made from 5-8 whole food ingredients. Due to normal nutritional variation in agricultural ingredients, actual nutrient content of our products may differ. The nutrition information presented here for nutrients not on the product label is based on USDA Nutrient Database Standard Reference for the ingredients in the product and is not based on product testing. For individuals dependent on a feeding tube, regular nutritional monitoring is recommended to ensure the diet is adequate and provides all essential nutrients.

Ingredients

Apples, Whole Eggs, Water, Zucchini, Flaxseed Oil, Rolled Oats. Contains: Eggs.

Administration

Recommended for use as directed by a health care professional. Can be used as bolus, pump or gravity feeding with a 14 Fr G-tube or larger. If consistency with gravity or pump feeding is a concern, dilute with fluid. Recommended hang time of 2 hours.

Use a variety of Real Food Blends meals to customize nutrition plans to address the dietary needs of each patient.

Storage Recommendations

Once opened, Real Food Blends should be used within 2 hours, or stored in a refrigerator for up to 24 hours. Discard unused contents thereafter.

Real Food Blends® Quinoa, Kale & Hemp

The only 100% real food meals made from simple ingredients and ready-to-feed for people with feeding tubes.

Main Features:

- Each 9.4 oz pouch yields an approx. 8 fl oz serving delivering 12 g protein, 19 g fat and 32 g of carbohydrate in 340 calories
- Plant-based
- 100% real food
- 75% water content
- No dairy, nut, or soy ingredients
- No added vitamins and minerals
- No added sugar* or salt**
- No color added, no flavor added

*Not a low calorie food **Not a sodium free food

Note: Real Food Blends can be used as a primary source of nutrition or in conjunction with tube feeding formula.

Real food blends does not contain added salt** or dairy products.

Nutritional Applications:

- Ideal for patients wanting easy access to a true blended diet.
- A growing body of evidence indicates that blenderized tube feeding may improve common symptoms of formula intolerance:
 - Gagging/Retching¹
 - Nausea & Vomiting²
 - Bowel Function³
 - Reflux⁴

Real Food Blends® Mini Prunes, Pears & Pumpkin

Real Food Blends Mini Prunes, Pears & Pumpkin is a 100% real food snack made from simple ingredients for people with feeding tubes, with 3g dietary fiber per 4 oz serving.

Main Features:

- 3 g of fiber from real food per 4 oz pouch
- Each 4 oz pouch contains 1 g protein, 1.5 g fat and 24 g of carbohydrate in 100 calories
- Plant-based
- 100% real food
- 75% water content
- No dairy, nut, or soy ingredients
- No added vitamins or minerals
- No added sugar* or salt**
- No color added, no flavor added
- Small volume (4 oz) & 100 calories per pouch: easy to start adding real food to tube feeding routine or use with blenderized diet
- Contains consciously-chosen ingredients to aid with bowel function

Ordering/Reimbursement Information:

Product	HCPCS Code	Reimbursement Code	Product Packaging	Calories Per Pouch

Calories	100
Protein, g	1
Fat, g	1.5
Carbohydrate, g	24
Dietary Fiber, g	3

	Per pouch (4 oz, 113 g)
Vitamins	
Vitamin D, IU (mcg)	0 (0)
Minerals	
Calcium, mg	20
Iron, mg	0.9
Sodium, mg	15
Potassium, mg	280

Ingredients

Prune Puree, Pear Puree, Pumpkin Puree, Water, Flaxseed Oil.

Administration

Recommended for use as directed by a health care professional. Can be used as bolus, pump or gravity feeding with a 12 Fr G-tube or larger. If consistency with gravity or pump feeding is a concern, dilute with fluid. Recommended hang time of 2 hours.

Use a variety of Real Food Blends meals to customize nutrition plans to address the dietary needs of each patient.

Storage Recommendations

Once opened, Real Food Blends should be used within 2 hours, or stored in a refrigerator for up to 24 hours. Discard unused contents thereafter.

SODIUM

Real Food Blends is made from whole food ingredients which are naturally low in sodium. Simply add salt, chicken broth, etc. to meet your patients' specific needs.

Sodium Recommendations:*

Age (yrs):		
1 -3	<1200 mg / daily	
4-8	<1500 mg / daily	
9-13	<1800 mg / daily	
14+	<2300 mg / daily	

Sources of Sodium:**

- 1/4 tsp iodized salt = 575 mg
- 1/2 tsp iodized salt = 1,150 mg
- 5 fl oz chicken broth = 550 mg[†]
- 8 fl oz milk = 100 mg[†]

CALCIUM

Real Food Blends does not contain any cow milk or dairy ingredients due to cow milk allergy and lactose intolerance being relatively common. Dairy products or other foods that are good sources of calcium can be added to the meals to meet your patients' specific needs or you can add an age-appropriate multivitamin to meet these needs.

Calcium Recommendations:*

Age (yrs)	Male	Female
1-3	700 mg	700 mg
4-8	1,000 mg	1,000 mg
9-13	1,300 mg	1,300 mg
14-18	1,300 mg	1,300 mg
19-50	1,000 mg	1,000 mg
51-70	1,000 mg	1,200 mg
71+	1,200 mg	1,200 mg

Easy-to-Feed Sources of Calcium**

- Almondmilk, unsweetened, 8 fl oz = 385 mg^{††}
- Yogurt plain, nonfat, 8 oz = 488 mg[†]
- Kefir, plain, lowfat, 8 oz = 317mg[†]
- Milk, lowfat (1%), 8 fl oz = 305 mg[†]
- Soy milk, unsweetened, 8 fl oz = 301 mg^{††}

CONSIDERATIONS

If micronutrients are a concern, a 100% complete multivitamin can be a simple solution, and if needed an additional calcium supplement. We understand that nutrition isn't one size fits all. Blended tube feeding, and therefore Real Food Blends, is customizable to help meet individual patient's nutrition needs.

Monogen®

A milk protein-based powdered medical food, low in fat, high in medium chain triglycerides (MCT). For supplemental use in individuals over 1 year of age.

Main Features:

- 26% of calories from fat
- 84% of fat as MCT
- Contains DHA and ARA
- Provides protein as a casein/whey mix; casein 61%, whey 39%
- Contains complete profile of vitamins and minerals including trace elements
- Osmolality:
Dilution
0.74 kcal/mL: 240 mOsm/kg H₂O
1.0 kcal/mL: 365 mOsm/kg H₂O

Indications:

- Long chain fatty acid oxidation disorders
- Hyperlipoproteinemia type 1
- Other lipid and lymphatic disorders where a low fat, high MCT diet is indicated
- Chylolothorax

Ingredients:

Maltodextrin, Skim Milk Powder, Refined Vegetable Oil (Modified Palm Kernel and/or Coconut Oil [Medium Chain Triglycerides]), Whey Protein Concentrate (Milk), Caseinate (Milk), Refined Walnut Oil, Sodium Citrate, Corn Syrup Solids, Potassium Chloride, Calcium Carbonate, Magnesium Hydrogen Phosphate, *C. calnii* Oil, Choline Chloride, *M. alpina* Oil, L-Valine, Inositol, L-Ascorbic Acid, Refined High Oleic Sunflower Oil, L-Tryptophan, Sodium L-Ascorbate, Taurine, Ferrous Sulfate, Zinc Sulfate, L-Carnitine, DL-Alpha Tocopheryl Acetate, Niacinamide, DL-Alpha Tocopherol, Calcium D-Pantothenate, Copper Sulfate, Pyridoxine Hydrochloride, Vitamin A Acetate, Thiamine Hydrochloride, Riboflavin, Folic Acid, Potassium Iodide, Ascorbyl Palmitate, Manganese Sulfate, Chromium Chloride, Sodium Molybdate, Phylloquinone, D-Biotin, Sodium Selenite, Cholecalciferol.

Contains: Milk, Walnut Oil, Coconut Oil

Administration:

- Intake to be determined by a medical professional and is dependent on the age, body weight and medical condition of the patient.
- Regular monitoring of essential fatty acids is recommended.
- For oral and tube feeding in individuals over 1 year of age.

For oral or tube feeding:

1. Measure the required amount of warmed water into a container.
2. Add the prescribed amount of Monogen to the water. The scoop provided in the can measures 5.6 g (level and unpacked).
3. Cover and shake until the powder has dissolved.

The following are guidelines for achieving desired concentrations:

Concentration	Powder	Water	Final Volume
22 kcal/30 mL (0.74 kcal/mL)	16.8 g (3 Scoops)	90 mL (3 fl oz)	100 mL (3.3 fl oz)
30 kcal/30 mL (1.0 kcal/mL)	22.7 g (4 Scoops)	80 mL (2.5 fl oz)	100 mL (3.3 fl oz)

Unpacked, level scoops are approximations only. For accuracy, use a gram scale.

Once prepared, the formula should be stored in a refrigerator and kept no longer than 12 hours from the time of preparation. Shake or stir Monogen immediately before use.

Precautions:

- Use under medical supervision.
- Not for parenteral use.

Storage:

Store in a cool, dry place. Once opened, use contents within 1 month. Replace lid firmly after use.

Liquigen®

A high energy medium-chain triglyceride (MCT) emulsion for conditions where MCTs are part of dietary management, such as long-chain fatty acid oxidation disorders or conditions managed by the medical ketogenic diet. A medical food.

Main Features:

- Simplifies addition of MCTs to the diet
- Emulsified for better mixing
- 50% MCT/ 50% water
- Unflavored
- High energy: 4.5 kcal/mL
- Osmolality: 10 mOsm/kg H₂O
- Density: 0.97 g/mL
- For oral or enteral use
- Can be used in beverages and foods

Indications:

- Conditions where MCTs are part of dietary management, such as:
- Conditions managed by the medical ketogenic diet
- Long-chain fatty acid oxidation disorders
- Chylolthorax
- Fat malabsorption
- Short bowel syndrome

Ordering/Reimbursement Information:

Product Code	Reimbursement Code	HCPCS Code	Product Packaging	Calories Per Bottle
71957	49735-0195-73	B4155	4 x 250 mL (8.5 fl oz)	1125

WIC[‡]: Contact your state WIC office to determine availability.

For more reimbursement information see *Resources*.

Nutrition Information:

Nutrients	Per 100 mL	Per 250 mL
Calories	450	1125
Protein, g	None	None
Carbohydrate, g	None	None

Sodium, mg	5.0	12.5
Potassium, mg	0.10	0.25
Chloride, mg	0.10	0.25

* Listed as fatty acids

Ingredients:

Refined Vegetable Oil (Medium Chain Triglycerides (Palm Kernel and/or Coconut Oil)), Water, Citric Acid Esters of Mono- and Diglycerides (CITREM), Mono- and Diglycerides, Citric Acid.

Administration:

- The quantity of Liquigen should be determined by a healthcare professional only and is dependent on the age, bodyweight and medical condition of the patient.
- Liquigen may require dilution for children under 5 years of age.
- **Shake well before use.**

Precautions:

- Use under medical supervision.
- Not suitable for use as a sole source of nutrition.
- Not for parenteral use.

Storage:

- Recommended storage between 39°-77°F (4°-25°C).
- Once opened, store in a refrigerator and use within 14 days.
- Always replace the bottle lid after use.

Duocal®

A powdered medical food providing fat and carbohydrate for increased caloric intake.

Main Features:

- Calorically dense – 1 scoop (5 g) provides 25 kcal
- Unique dual energy source of fat and carbohydrate
- Soluble in liquids and moist foods without altering taste or texture
- Milk protein free
- Osmolality (1:3 dilution): 310 mOsm/kg H₂O
- 1 gram contributes approximately 0.93 mOsm when added to a solution
- PRSL of less than 0.017 mOsm/g
- Energy distribution:
Carbohydrate 59%
Fat (MCT 50% / LCT 50%) 41%
- Displacement 0.77 mL/g

Indications:

- Conditions where a high-energy, low-fluid, low-electrolytes diet is indicated
- Protein-restricted diets
- Disorders of protein and amino acid metabolism
- Malabsorptive states
- Modular diets
- Catabolic states (e.g. burns, trauma, post-operative stress)
- Suitable for oral and tube feedings

Ordering/Reimbursement Information:

Product Code	Reimbursement Code	HCPCS Code	Product Packaging	Calories Per Can
49828	49735-0182-62	B4155	6 x 400 g (14.1 oz)	1968

WIC[†]: Contact your state WIC office to determine availability. For more reimbursement information see *Resources*.

Nutrition Information:

Nutrients	Per 100 g
Calories	492
Protein, g	0
Fat, g	22.3
Saturated, g	13.8
Monounsaturated, g	2.5
Polyunsaturated, g	4.8
Carbohydrate, g	72.7
Minerals	
Sodium, mg	≤200
Potassium, mg	≤50
Chloride, mg	≤200
Calcium, mg	≤50
Phosphorus, mg	≤50

Ingredients:

Corn Syrup Solids, Refined Vegetable Oil (Corn Oil, Non-Hydrogenated Coconut Oil, Modified Coconut and/or Palm Kernel Oil (Medium Chain Triglycerides)), Mono- and Diglycerides, Diacetyl Tartaric Acid Esters of Mono- and Diglycerides.

Household Measures:

(all measures are unpacked)

Measure	Weight	Calories
1 Scoop	5 g	25
1 tsp	2.4 g	12
1 Tbsp	7.3 g	36
1/4 cup	28.3 g	144
1/2 cup	56.5 g	288
1 cup	117 g	576

Based on standard US dry, household measurements. All measurements are level and unpacked. Household measurements are approximations only. For accuracy use a gram scale.

Precautions:

- Use under medical supervision.
- Not for parenteral use.
- Not suitable as the sole source of nutrition.

Administration:

- For individuals 1 year and above.
- Intake to be determined by a medical professional and is dependent on the age, body weight and medical condition of the patient.

For oral or tube feeding:

1. Measure the recommended amount of Duocal.
2. Add powder to the required volume of liquid and/or soft food and stir continuously until the powder has dissolved. A level scoop holds approximately 5 g of powder (25 kcal).
3. Unused foods and liquids mixed with Duocal should be refrigerated and used within 24 hours. Shake or stir immediately before serving.

Storage:

- Store unopened can in a cool, dry place. Once opened, use contents within 1 month. Replace lid firmly after use.

Polycal™

A powdered, concentrated source of energy (maltodextrin). A medical food.

Main Features:

- Calorically dense – 1 scoop provides approximately 5 g (~20 kcal)
- Easily digestible maltodextrin
- Completely soluble in foods and drinks
- Neutral taste – does not alter the taste of foods and drinks
- Osmolality (10% solution): 104 mOsm/kg H₂O
- 1 gram contributes approximately 1.04 mOsm when added to a solution
- PRSL < 0.01 mOsm/10 g
- Displacement: 0.57 mL/g

Indications:

- Conditions where a high energy, low fluid or modular diet is indicated.
- For the dietary management of energy needs in patients with inborn errors of metabolism.

Ordering/Reimbursement Information:

Product Code	Reimbursement Code	HCPCS Code	Product Packaging	Calories Per Can
89461	49735-0111-52	B4155	12 x 400 g (14.1 oz)	1536

WIC[‡]: Contact your state WIC office to determine availability.

For more reimbursement information see *Resources*.

Nutrition Information:

Nutrients	Per 100 g
Calories	384
Carbohydrate, g	96.0
Protein, g	0
Fat, g	0
Minerals	
Sodium, mg	2.0
Potassium, mg	0

Ingredients:

Maltodextrin.

Household Measures:

(all measures are unpacked)

Measure	Weight	Calories
1 Scoop	5 g	~20 kcal
½ tsp	1.2 g	4.6 kcal
1 tsp	2.4 g	9.3 kcal
1 Tbsp	7.3 g	27.8 kcal
¼ cup	29.0 g	111 kcal
½ cup	38.7 g	148 kcal
¾ cup	58.0 g	223 kcal
1 cup	116 g	445 kcal

Based on standard US dry, household measurements. All measurements are level and unpacked. Household measurements are approximations only. For accuracy use a gram scale.

Precautions:

- Use under medical supervision.
- Not for parenteral use.
- Not suitable for use as a sole source of nutrition.

Administration:

Intake to be determined by a medical professional and is dependent on the age, body weight and medical condition of the patient.

- Beverages: Sprinkle the required amount of powder into the beverage and stir well.
- Foods: For best results, mix powder with sufficient liquid to form a smooth paste before stirring into hot or cold food.
- Unfinished beverages and foods should be stored in a refrigerator for up to 24 hours.

Storage:

Store unopened can in a cool, dry place. Once opened, use contents within 1 month. Replace lid firmly after use.

Complete Amino Acid Mix

An unflavored, powdered mixture of essential and non-essential amino acids. A medical food.

Main Features:

- Balanced mixture of essential and non-essential amino acids
- Supplements increased protein needs in enteral formulas
- Complete Amino Acid Mix provides 4 g of protein equivalent per 5 g of powder
- Osmolality (5% w/v): 360 mOsm/kg H₂O
- Approximate displacement: 0.75 mL/g

Indications:

- Conditions in which a nutritionally complete feed is not suitable or a modular approach is required
- Conditions where an oligoallergenic diet is indicated (e.g. eosinophilic esophagitis or individuals with intolerance to milk protein or other whole protein)
- Intractable malabsorption
- Feeding difficulties in post-operative conditions
- Chronic intestinal diseases (e.g. Crohn's disease)
- Short bowel syndrome following intestinal resection

Ordering/Reimbursement Information:

Ingredients:

L-Lysine L-Glutamate, L-Leucine, L-Arginine, L-Proline, L-Valine, L-Aspartic Acid, Glycine, L-Isoleucine, L-Threonine, L-Phenylalanine, L-Histidine, L-Serine, L-Tyrosine, L-Alanine, L-Cystine, L-Tryptophan, L-Methionine, L-Glutamine, L-Glutamic Acid.

Household Measures:

(all measures are unpacked)

Measure	Weight	Protein Equivalent
1/2 tsp	1.4 g	1.15
1 tsp	2.9 g	2.38
1/2 Tbsp	4.4 g	3.61
1 Tbsp	9.5 g	7.79

Based on standard US dry, household measurements. All measurements are level and unpacked. Household measurements are approximations only. For accuracy use a gram scale.

Precautions:

- Use under medical supervision.
- Not for parenteral use.
- Not suitable for use as a sole source of nutrition.

Administration:

- Dosage should be determined by a doctor or dietician and is dependent on the age, body weight and medical condition of the patient.
- The recommended feeding concentration is 5% w/v (e.g. 5 g powder to 100 mL of water).
- Complete Amino Acid Mix should be weighed on a scale that reads in grams.
- Best served as a chilled drink, mixed with water, fruit juices or other formulas. Complete Amino Acid Mix may also be added to soft, moist foods, such as applesauce.
- Once reconstituted, the prepared feed should be stored in a refrigerator and must not be kept longer than 24 hours from the time of preparation. Stir or shake immediately before serving.

Storage:

- Store in a cool, dry place. Once opened, use within 1 month. Always replace container lid after use.

Essential Amino Acid Mix

An unflavored, powdered mixture of essential amino acids, including cystine and histidine. A medical food.

Main Features:

- Balanced mixture of essential amino acids
- Essential Amino Acid Mix provides 4 g of protein equivalent per 5 g of powder
- Osmolality (5% w/v): 360 mOsm/kg H₂O
- Approximate displacement: 0.75 mL/g

Indications:

- Dietary management of urea cycle disorders
- Conditions in which a nutritionally complete feed is not suitable or a modular approach is required

Ordering/Reimbursement Information:

Product Code	Reimbursement Code	HCPCS Code	Product Packaging	Calories Per Can

Storage:

- Store in a cool, dry place. Once opened, use within 1 month. Always replace container lid after use.

Phlexy-Vits

A concentrated, powdered vitamin, mineral and trace element preparation designed to help meet the micronutrient requirements of older children (11 years and older) and adults.

Main Features:

- One 7 g packet supplies the majority of vitamins and minerals needed to meet the DRI of individuals 11 years and older

Indications:

- Restrictive therapeutic diets

Ordering/Reimbursement Information:

Product Code	Reimbursement Code	HCPCS Code	Product Packaging	Calories Per Packet
49133	49735-0106-85	A9270	30 x 7 g	0.2

Ingredients:

Calcium Phosphate Dibasic, Magnesium Acetate, Guar Gum, L-Ascorbic Acid, Ferrous Sulfate, Dextrose, Zinc Sulfate, Nicotinamide, DL-Alpha Tocopheryl Acetate, Copper Gluconate, Calcium D-Pantothenate, Manganese Sulfate, Pyridoxine Hydrochloride, Thiamin Mononitrate, Riboflavin, Vitamin A Acetate, Folic Acid, Potassium Iodide, Sodium Molybdate, Sodium Selenite, D-Biotin, Chromium Chloride, Phylloquinone, Vitamin D₃, Cyanocobalamin.

Household Measures:

(all measures are unpacked)

Measure	Weight
1/4 tsp	0.7 g
1/2 tsp	1.4 g
1 tsp	3 g
1 Tbsp	10 g

Based on standard US dry, household measurements. All measurements are level and unpacked. Household measurements are approximations only. For accuracy use a gram scale.

Administration:

- Add a small amount of water and mix to a smooth paste. Add the remaining water to give a final volume of approximately 100 mL.
- Mix one sachet of Phlexy-Vits to a smooth paste with a small amount of lemonade or fruit juice (approx. 1.5 fl oz). Dilute to a final volume of 150 mL (5 fl oz). The amount of lemonade/juice and water used will vary according to taste.

Precautions:

- Not for parenteral use.
- Use under medical supervision.
- Not suitable for use as a sole source of nutrition.

Storage:

- Store in a cool, dry place. Once opened, a sachet should be stored in an airtight container and used within 2-3 days.

RESOURCES

Nutricia Learning Center is a unique education tool for clinicians managing patients with specialized nutritional requirements. This set of valuable resources and clinical tools includes:

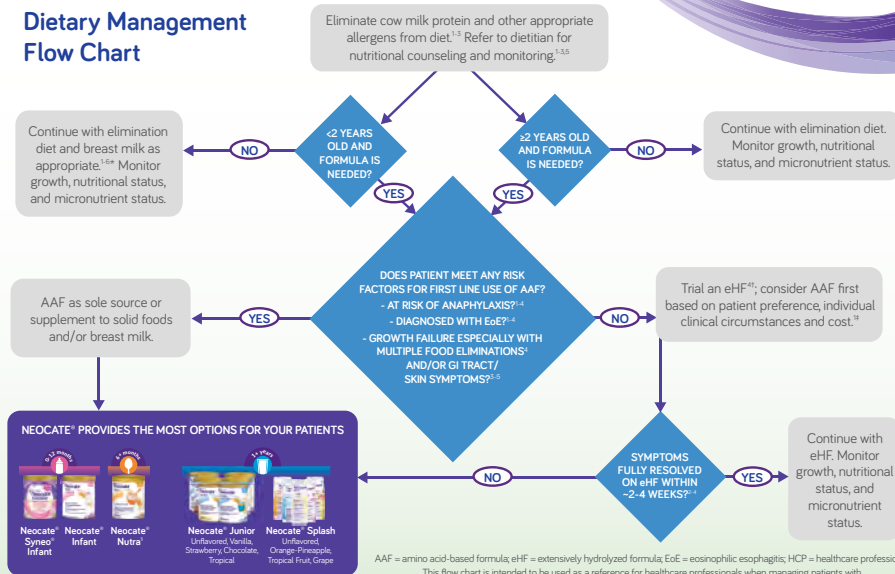

- Recorded Webinars (CE eligible)
- Healthcare Professional Tools
- Patient Education Tools
- Reference Library
- Case Studies

The following pages include pocket-sized versions of treatment flowcharts that are available free at NutriciaLearningCenter.com

These flow charts illustrate options for the nutrition management of conditions where specialized medical nutrition therapy may be helpful. They are evidence-based tools that may be used as decision-making guides to help clinicians to determine the best way to nutritionally manage patients. Please visit our website for free electronic copies of these flow charts.

COW MILK ALLERGY/MULTIPLE FOOD ALLERGIES

Dietary Management Flow Chart

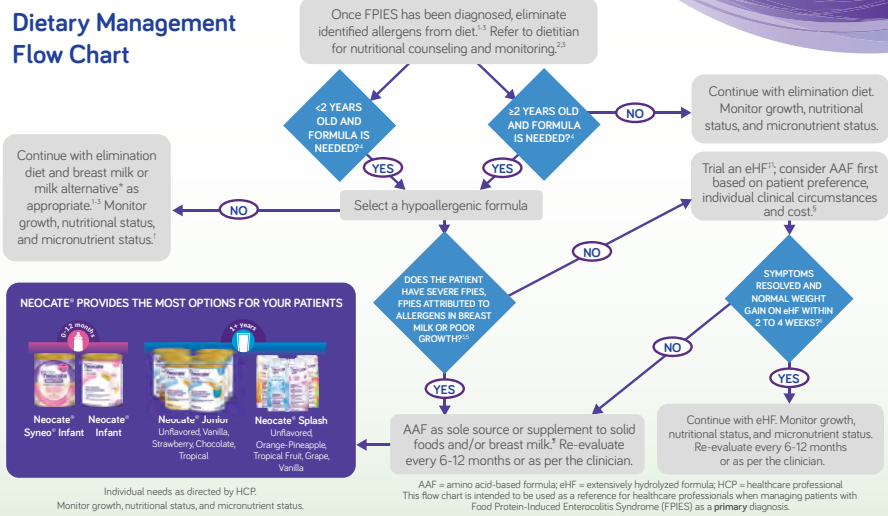

Individual needs as directed by HCP.
Monitor growth, nutritional status, and micronutrient status.
¹Neocate Nutra is a hypoallergenic semi-solid food - not suitable as sole source of nutrition.

AAF = amino acid-based formula; eHF = extensively hydrolyzed formula; EoE = eosinophilic esophagitis; HCP = healthcare professional
This flow chart is intended to be used as a reference for healthcare professionals when managing patients with cow milk allergy/multiple food allergies as a primary diagnosis.
References: 1. Focchi A, et al. 2010;21 Suppl 211-125. 2. Koletzko S, et al. J Pediatr Gastroenterol Nutr. 2012;55:221-9. 3. Venter C, et al. Clin Transl Allergy. 2013;3:23. 4. Meyer et al. J Allergy Clin Immunol Pract. 2016;5:383-399. 5. Ludman S, et al. BMJ. 2013;347:f5424. 6. Vanderslipas Y, et al. Arch Dis Child. 2007;92:902-8. 7. Hill DJ, et al. Clin Exp Allergy. 2007;37:808-22.

FOOD PROTEIN-INDUCED ENTEROCOLITIS SYNDROME (FPIES)

Dietary Management Flow Chart

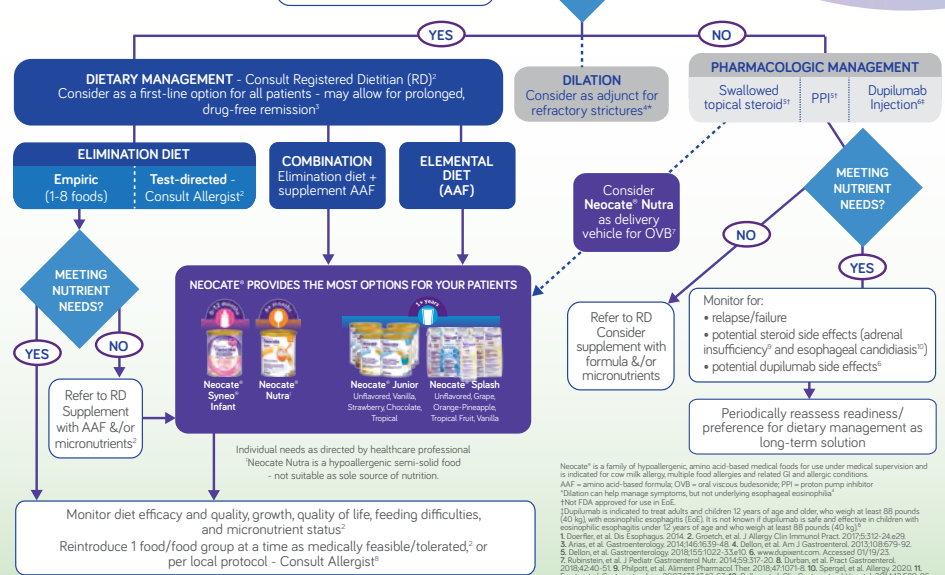

Nutricia North America supports the use of breast milk wherever possible. Neocate® is a family of hypoallergenic, amino acid-based medical foods for use under medical supervision and is indicated for cow milk allergy, multiple food allergies and related GI and allergic conditions. For 1-2 year old patients, the milk alternative should be food allergy appropriate and nutritionally equivalent to whole cow's milk with adequate calcium, protein, fat and total calories. *If the patient is exclusively formula or breastfed at 12 months and shows sign of feeding difficulty refer to a feeding specialist to assess motor skill development. †Other options may exist for some patients. For children with soy-induced FPIES, cow milk formula can be recommended for patients without cow milk allergy. For children with cow milk-induced FPIES (CM-induced FPIES), soy formula can be recommended for patients without soy allergy and > 6 months of age. However, cautious introduction is recommended because of the potential for co-reactivity between patients with soy-induced FPIES and those with CM-induced FPIES.¹² ‡In settings where the cost of an AAF is lower, the use of an AAF may be equally reasonable.⁴ §The transition period to a hypoallergenic formula will vary among patients and could take as long as two weeks. Once fully transitioned, FPIES symptoms should resolve within 10-14 days.^{2,5} ¶If symptoms are not resolved with AAF or eHF, consider work up of other conditions, e.g. disaccharidase deficiency. References: 1. Ayemang, et al. Clin Rev Allergy Immunol. 2019; 2. Nowak-Wężyński, et al. J Allergy Clin Immunol. 2017;139:1111-26.e4. 3. Venter, et al. Curr Opin Allergy Clin Immunol. 2014; 4. Ficocchi, et al. Pediatr Allergy Immunol. 2010;21 Suppl 211-125. 5. Venter, et al. Clin Transl Allergy. 2017;7:26.

EOSINOPHILIC ESOPHAGITIS

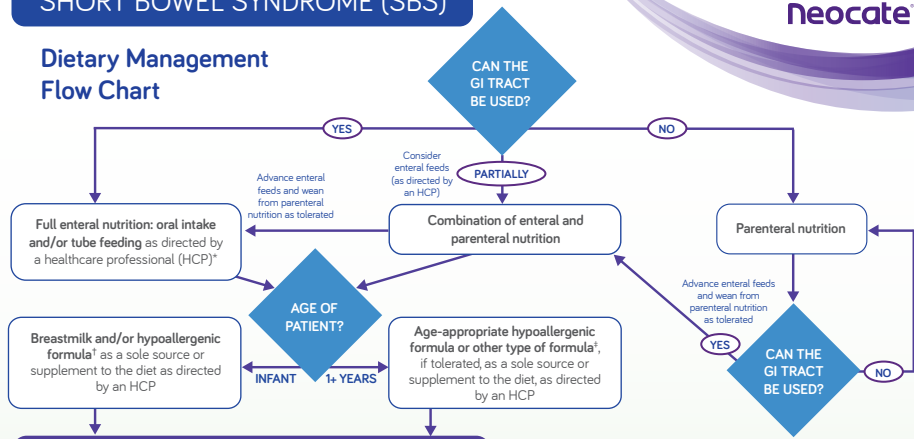

Dietary Management Flow Chart

Neocate® is a family of hypoallergenic, amino acid-based medical foods for use under medical supervision and is indicated for cow milk allergy, multiple food allergies and related GI and allergic conditions. AAF = amino acid-based formula; OVB = oral viscous budesonide; PPI = proton pump inhibitor. †Dilation can help manage symptoms, but not underlying esophageal eosinophilia. ‡Not FDA approved for use in EoE. §Dupilumab is indicated to treat adults and children 12 years of age and older, who weigh at least 88 pounds (40 kg) with eosinophilic esophagitis (EoE). It is not known if dupilumab is safe and effective in children with eosinophilic esophagitis under 12 years of age and who weigh at least 88 pounds (40 kg). 1. Doerfler, et al. Dis Esophagus. 2014; 2. Goetch, et al. J Allergy Clin Immunol Pract. 2017;5:312-24.e29. 3. Anas, et al. Gastroenterology. 2014;146:939-48. 4. Dellon, et al. Am J Gastroenterol. 2013;108:679-92. 5. NUTRICIA
Neocate®

WOUNDS

Dietary Management Flowchart

ROUTINE RN ASSESSMENT OF RISK

Existing Pressure Injury (PI) or Wound

Consult RDN for nutrition assessment
See appendix 2

NUTRITION THERAPY AT RISK FOR PI AND MALNUTRITION!

- Optimize energy intake
- Adjust protein intake

NUTRITION THERAPY FOR PI²

- Calories: 30-35 kcal/kg body weight
 - Protein: 1.25 - 2.0 g/kg body weight*
 - Fluid: 1 ml per day per kcal consumed
 - Stages 2-4: Include medical food with added arginine, zinc, and antioxidants (i.e. Vitamin C)
 - Multivitamin with mineral supplement with 100% of RDA if intake is poor or deficiency confirmed
- Adjust per clinical condition
Adjust for individuals who are malnourished or at risk of malnutrition

Risk Factors High?
See appendix 1

Meeting Protein Requirements?

CONSIDER PRO-STA™2,3
RD determines actual dosage based on condition, estimated need & dietary intake.

- Recommend physician order Pro-Stat®
 - Provide Pro-Stat with medication pass
 - Document in MAR
 - Provide fortified or high calorie foods
 - Provide high vitamin C rich foods daily
 - Offer preferred food/beverage at appropriate texture
 - Liberalize restrictive diets
 - Weigh weekly or per facility policy
 - Develop & implement plan of care
- See appendix 3

Monitor nutritional & medical status weekly or per facility policy
See appendix 4

Stage	Pro-Stat® Products (serving size = 30 mL)
High risk for Wounds	Pro-Stat
Pressure Injury or Wounds	Pro-Stat
Stages 2-4 Pressure Injury or Wounds	Pro-Stat AWC
Multiple Pressure Injuries, Hard-to-Heal Wounds (Diabetic, Venous, Surgical, Burns)	Pro-Stat AWC

RDN to re-evaluate nutritional intervention & modify plan as needed until wound healed or no longer at risk
See appendix 5

Pro-Stat contains 0% fruit juice.

NLC
NUTRICIA LEARNING CENTER

*Unless contraindicated

Pro-Stat® is a medical food designed for the dietary management of wounds, and other conditions requiring increased protein needs in low volume. Use under medical supervision.

WOUNDS

Dietary Management Flowchart

Appendix 1: Risk Factors

1. Braden Scale < 16⁴
2. MNA-SF⁵ ≤ 11⁵ (or other validated nutrition screening tool)
3. Unintended weight loss ≥ 5% in 30 days, ≥ 10% in 180 days
4. Body mass index (≤ 18.5 or ≥ 30)
5. Poor oral intake
6. Receiving enteral/parenteral nutrition
7. Immobility, decline in ADLs
8. Infections (UTI)
9. Identified moderate to high risk for malnutrition
10. Decline in ability to eat independently
11. Chewing/swallowing problem/dysphagia
12. Co-morbid conditions: end-stage renal disease, diabetes, CHF
13. Cognitive impairments
14. Skin exposure to urinary or fecal incontinence
15. History of pressure injuries

Appendix 2: Nutritional Assessment

16. Review diagnosis/medical condition
17. Review skin condition per facility's wound assessment
18. Review of skin assessment & validated nutrition screening tools
19. Current dietary intake
20. Amount & quality of protein provided
21. Body mass index
22. Determine deviation from current body weight
23. Determine nutritional needs
24. Interview for food preferences & intolerances

25. Medications/medical treatments (antibiotics, steroids)
26. Average food/ fluid intake, medical foods, oral nutrition supplements (% consumed)
27. Chewing/swallowing status/ability to eat independently
28. Dehydration risk factors
29. Nutrition related laboratory values: HgbA1C, BUN, etc. Note: serum hepatic protein values are affected by infection, inflammation, hydration and renal function
30. Renal and liver function to ensure tolerance of protein levels
31. Hydration status for individuals with elevated temperature, vomiting, profuse sweating, or heavy draining wounds

Appendix 3: Protein Supplementation

32. Nutrition intervention will be communicated as appropriate to: nursing, dietary, physician, resident, & caregiver
33. Administer PO with med pass, pour amount ordered into med cup
34. Based on preference, it can be mixed with beverage or food of choice
35. If administered via tube-feeding: flush with 30-60 mL water, dilute with 30-60 mL water, & flush tube with additional 30-60 mL
36. Pro-Stat[®] provides: 15 g protein, 100 kcal/30 mL
Pro-Stat[®] AWC provides: 17 g protein, 100 kcal/30 mL
37. Pro-Stat and Pro-Stat AWC are lactose free, soy free, gluten free, and kosher
38. Monitor 2-4 weeks & modify as needed to meet nutritional goals
39. Store Pro-Stat at room temp
40. Label & date upon opening, discarding after 3 months

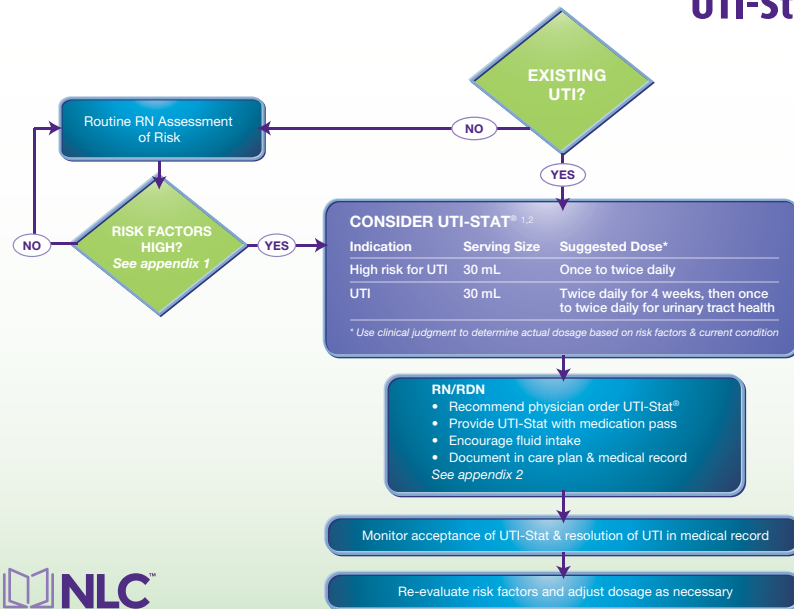

Appendix 4: Monitor Nutritional & Medical Status

41. Skin condition and/or wound status weekly or per policy
42. Acceptance & tolerance of supplement
43. Calorie, protein, fluid adequacy compared to estimated requirement
44. Ability to meet nutrient needs orally
45. Oral intake, if inadequate, consider enteral feeding consistent with individual's wishes
46. Weight status
47. Laboratory values, if available
48. Effectiveness of intervention in collaboration with interdisciplinary team & adjust, if condition changes, improves or declines
49. Consider validated tool such as PUSH to monitor progress for pressure injury healing

Appendix 5: Evaluate

50. Intact skin and/or progress toward healing
51. Improved and/or stable nutritional status
52. Intake meets estimated calorie, protein & fluid requirements
53. When goal is healing, monitor with PUSH tool
54. Document & re-assess per policy

URINARY TRACT INFECTIONS (UTI)

URINARY TRACT INFECTIONS (UTI)

Appendix 1: Risk Factors

1. Poor fluid intake less than 1000 mL/day
2. Catheterization
3. Two or more UTIs in the past 6 months
4. Incontinence
5. Urinary retention
6. Immobility
7. Orders for prophylactic antibiotics

Appendix 2: UTI-Stat® Administration

8. Assess current fluid intake/type of liquids (thin or thickened)
9. Assess allergy to cranberry products
10. Recommend the physician hold or discontinue current orders for cranberry tablets, cranberry juice, cranberry containing supplements, D-Mannose, or vitamin C if taking for UTI
11. Recommend physician order UTI-Stat^{1,2}
12. Communicate administration as appropriate to: nursing, dietary, physician, resident, & caregiver
13. Administer UTI-Stat PO with med pass, pour amount ordered into med cup
14. UTI-Stat can be consumed straight or mixed with any food or beverage
15. If administered via tube-feeding: flush tube with 30 mL water, measure appropriate dosage, administer into enteral tube, flush tube with additional 30 mL
16. UTI-Stat provides 70 calories & 1 g of sugar per 30 mL
17. Document intervention in care plan
18. Encourage increased consumption of fluids
19. Continue facility policies for UTI management (e.g. hygiene) (RN)
20. Monitor & document acceptance of UTI-Stat & response to the intervention in medical record (RN)

NUTRICIA
UTI-Stat®

Reimbursement

WIC:

WIC is a registered service mark of the U.S. Department of Agriculture for USDA's Special Supplemental Nutrition Program for Women, Infants and Children.

WIC eligible means that a product has been approved at the Federal level and, therefore, may be included on a State agency's authorized food list if the State agency so chooses.

Each WIC State agency determines its own allowed formula list. Contact your State WIC office to determine the availability of a specific WIC eligible Nutricia product in your area – <http://www.fns.usda.gov/wic>.

Reimbursement Codes:

Reimbursement codes listed in this Guide have been submitted by Nutricia North America to US data warehouses based on the format established by the data warehouses. These codes are not NDC numbers.

Other Reimbursement Information:

For additional information on reimbursement of Nutricia North America's products in the United States, please contact us at (800) 365-7354, email: NutriciaNavigator@nutricia.com or visit our websites: Nutricia-NA.com/NutriciaNavigator, Neocate.com/Reimbursement, NutriciaMetabolics.com/Formular-Coverage or MyKetoCal.com/Nutricia-Navigator.

Resources

§ Dietary Reference Intakes (DRIs): Recommended Dietary Allowances and Adequate Intakes, Total Water, Macro-Nutrients, Vitamins and Elements

Food and Nutrition Board, Institute of Medicine, National Academies (1997-2005)

* **Note:** The tables (taken from the DRI reports, see www.nap.edu) present Recommended Dietary Allowances (RDAs) in **bold type** and Adequate Intakes (AIs) in ordinary type followed by an asterisk (*). RDAs and AIs may both be used as goals for individual intake. RDAs are set to meet the needs of almost all (97 to 98 percent) individuals in a group. For healthy breastfed infants, the AI is the mean intake. The AI for other life stage and gender groups is believed to cover needs of all individuals in the group, but lack of data or uncertainty in the data prevent being able to specify with confidence the percentage of individuals covered by this intake. Individual patient recommendations may vary.

^a Total Water includes all water contained in food, beverages, and drinking water

^b Based on g protein per kg body weight:

- 1.52 g/kg/day for infants 0-6 months
- 1.5 g/kg/day for infants 7-12 months
- 1.1 g/kg/day for 1-3
- 0.95 g/kg/day for 4-13 y
- 0.85 g/kg/day for 14-18 y
- 0.80 g/kg/day for adults
- 1.1 g/kg/day for pregnant (using pre-pregnancy weight) and lactating women

Acceptable Macronutrient Distribution Ranges

Macronutrient	Range (percent of energy)		
	Children, 1-3 y	Children, 4-18 y	Adults
Fat	30 - 40	25 - 35	20 - 35
n-6 polyunsaturated fatty acids* (linoleic acid)	5 - 10	5 - 10	5 - 10
n-3 polyunsaturated fatty acids* (α-linolenic acid)	0.6 - 1.2	0.6 - 1.2	0.6 - 1.2
Carbohydrate	45 - 65	45 - 65	45 - 65
Protein	5 - 20	10 - 30	10 - 35

* Approximately 10% of the total can come from longer-chain n-3 or n-6 fatty acids.

www.Nutricia-NA.com

- Provides an overview of Nutricia North America.

www.Pepticate.com/HCP

- Clinical evidence behind Pepticate

www.NutriciaLearningCenter.com

- A community hub and trusted, collective resource for healthcare providers managing patients with special nutritional needs.
- CE-eligible webinars by esteemed experts.
- Clinician resources, patient resources and case studies.

www.Neocate.com

- Healthcare Professional pages provide detailed product information.
- Neocate Footsteps provides families with valuable resources and support at each step of a patient's journey when diagnosed with food allergies and related conditions. Through Footsteps patients and families will have access to:
 - Assistance to gain insurance coverage for Neocate.
 - Support in adjusting to a new lifestyle at home through transition guides, allergy-friendly recipes, and informational videos.
 - Resources to adapt in social settings through helpful tips and support through social communities.
- And more!

www.Fortini.com

- Resources designed to help you guide infants failing to thrive to epic comebacks
- DRI Calculator to help you assess how nutrients in Fortini feedings meet your goals
- Medical education and other learning opportunities on key topics
- Clinical evidence behind Fortini
- Resources for parents and caregivers

www.NutriciaMetabolics.com

- Resources for the Metabolic community, including Nutricia Metabolic product details, recipes, patient educational tools and information on product coverage & support.
- Convenient online shop including a variety of low protein foods.

www.MyKetoCal.com

- Provides valuable resources and educational materials for clinicians and families.
- Locate a ketogenic diet center in North America by using the "Find a Ketogenic Center" tool.
- Helpful recipes and tools for families and dietitians using the medical ketogenic diet.

www.MyKetoCal.com/KetocalConnect

- Provides patients and caregivers the resources they need to successfully start and stay on the medical ketogenic diet. Dedicated pillars of support to provide information about KetoCal's:
 - Trusted products
 - Coverage and cost assistance
 - Caregiver support
 - Tasty ketogenic recipes

www.SpecializedAdultNutrition.com

- Educates clinicians and consumers about Nutricia's Specialized Adult Nutrition products.
- Features tips, recipes and information on how to order our products.

www.RealFoodBlends.com

- Provides customers the resources they need to implement a Blenderized Tube Feeding diet.
- RD Hub provides CE-eligible webinars by esteemed experts and nutritional information regarding Real Food Blend products.
